1 P R O C E E D I N G S

2 THE CLERK: Court is in session and has
3 for consideration a hearing on a motion for
4 preliminary injunction in Dartmouth-Hitchcock
5 Clinic, et al, versus New Hampshire Department of
6 Health and Human Services, civil case
7 number 11-CV-358-SM.

8 THE COURT: All right. Good morning. It
9 must be an interesting case. Plaintiffs.

10 MR. O'CONNELL: Good morning, your Honor.

11 THE COURT: Are you ready to go?

12 MR. O'CONNELL: We are.

13 THE COURT: All right.

14 MR. O'CONNELL: The plaintiffs call Henry
15 Lipman to the stand.

16 THE COURT: Mr. O'Connell, I haven't
17 looked at your request for findings of facts. I
18 was just told it was 84 pages or something.

19 MR. O'CONNELL: Yes, it is, your Honor.

20 THE COURT: I'll take a look at it.
21 What's your anticipated time?

22 MR. O'CONNELL: For this witness or for
23 the whole case?

24 THE COURT: No. For your witnesses.

25 MR. O'CONNELL: Our plan was to be done by

1 midday tomorrow, if possible.

2 THE COURT: Try the end of the day today.

3 MR. O'CONNELL: Really?

4 THE COURT: Yeah. We're not going to be
5 too repetitive, right?

6 MR. O'CONNELL: We're going to do
7 everything we can to move this along.

8 THE COURT: I'll help you move along.

9 MR. O'CONNELL: I have no doubt.

10 There are also a number of state witnesses
11 who were not alerted to be here today that we
12 would call tomorrow, and Dr. Butterly from
13 Dartmouth-Hitchcock we've asked to be here
14 tomorrow. He didn't cancel his rounds today. We
15 scheduled him for first thing tomorrow. So we can
16 take him out of order.

17 THE COURT: All right.

18 HENRY LIPMAN

19 having been duly sworn, testified as follows:

20 THE CLERK: Would you please state your
21 name for the record and spell your last name
22 please?

23 THE WITNESS: It's Henry. Middle initial
24 D, as in David. L-I-P-M-A-N, Lipman.

25 MR. O'CONNELL: Please be seated, Mr.

1 Lipman.

2 DIRECT EXAMINATION

3 BY MR. O'CONNELL:

4 Q. Where do you live, sir?

5 A. I live in Laconia, New Hampshire.

6 Q. How long have you lived in Laconia?

7 A. 23 years.

8 Q. Are you married?

9 A. Yes, I am.

10 Q. Do you have children?

11 A. Two children.

12 Q. Are you currently employed?

13 A. I am.

14 Q. Where are you employed, sir?

15 A. At LRG Healthcare.

16 Q. What is LRG Healthcare, please?

17 A. LRG Healthcare is a two-hospital group,

18 Lakes Region General Hospital in Laconia and

19 Franklin Regional Hospital in Franklin, New

20 Hampshire.

21 Q. Will you tell us a little bit more about

22 Lakes Region Hospital? How many beds does it

23 have?

24 A. Lakes Region is licensed for 137 beds.

25 Q. And Franklin Hospital?

1 A. It's a 25-bed critical access hospital.

2 Q. What is your position?

3 A. I'm the Senior Vice President for
4 Financial Strategies and External Relations.

5 Q. Would you tell the Court what your
6 responsibilities include with that role?

7 A. I oversee the finances of the group of
8 hospitals and our provider practices, as well as
9 external relations, public policy.

10 Q. Are you familiar with the financial
11 operations of LRG Healthcare?

12 A. Absolutely.

13 Q. Are you responsible for those issues with
14 regard to that corporation?

15 A. Yes, I am.

16 Q. Would you summarize your education,
17 please?

18 A. I have a Bachelor of Science in health
19 management and policy from the University of New
20 Hampshire. I graduated 1981. An MBA from Boston
21 University with a healthcare management
22 concentration. I graduated in 1985.

23 Q. How long have you been employed in
24 healthcare administration?

25 A. A little over 30 years.

1 Q. I would like to talk with you in some
2 detail now about the LRG health system. Would you
3 please tell the Court what its mission is?

4 A. Our mission is to provide quality and
5 compassionate healthcare services to strengthen
6 our community.

7 Q. How long has that been the mission of the
8 hospitals?

9 A. LRG Healthcare was formed in July of 2002.
10 Recently we did make a change in our mission. It
11 used to read: To provide accessible quality and
12 compassionate care. We dropped the word
13 accessible.

14 Q. Why did you make that change?

15 A. Because of the financial strings that
16 we're under as a result of the state change in the
17 commitment to the Medicaid program, as well as
18 other financial challenges that have been
19 generated by the economy at large.

20 Q. So what are the implications of the change
21 of your mission as you've just described it with
22 regard to Medicaid patients?

23 A. That the access that we have historically
24 provided for the life of the organization is at
25 risk, and we've had to take actions to limit it to

1 some extent.

2 Q. Would you summarize for the Court the
3 actions that you've taken at the Lakes Region
4 General Hospital to deal with the financial
5 circumstances of the state's recent decisions?

6 A. I kind of describe it as sort of we have
7 kind of four buckets to work with.

8 The first bucket is the bucket of
9 profitability. And to a large extent operating in
10 the red there's nothing more to have there.

11 The second bucket we can work on is sort
12 of productivity, which is trying to increase the
13 efficiencies and the economies of the
14 organization. We've improved that by tens of
15 millions of dollars. We continue to work on that.

16 The third area that we could work on is
17 cost shifting. But with the way health insurance
18 premiums are in New Hampshire and the position of
19 insurers, we can no longer do much of anything
20 there.

21 And the last one which we've heretofore
22 never had to address is access.

23 Q. Has Lakes Region General ever had to
24 consider the payer status of a patient at the time
25 it was going to administer services?

1 A. No.

2 Q. Has that changed?

3 A. Yes.

4 Q. In what way has it changed?

5 A. We have started to do a few things. The
6 first which we implemented was discharging from
7 our primary care practices Medicaid patients. We
8 have modified our financial and charitable systems
9 programs, and we are also working on implementing
10 the concept of limiting elective -- what we call
11 avoidable elective care.

12 Q. And why are you implementing those changes
13 now?

14 A. Well, the overwhelming impact of the state
15 budget change in terms of the pulling out of for
16 us a year over year change of 10 million, 130
17 million affecting the ten hospitals, and the
18 compounding of that from the preexisting rate
19 cuts, which through the biennium will be somewhere
20 around \$11.6 million.

21 Q. Lakes Region is a plaintiff in this
22 lawsuit?

23 A. We certainly are.

24 Q. What was the reason that Lakes Region
25 brought suit now with the other plaintiffs?

1 A. We're just in such a compromised position
2 in terms of meeting our community needs that we
3 see no choice.

4 Q. What relief do you seek from the Court by
5 this action?

6 A. We're looking for an injunction to have
7 the state fulfill its responsibility under the
8 Medicaid Act, to assess what the impacts are on
9 access, as well as to make sure that the impact on
10 patients themselves, that they have a say in
11 what's gone on.

12 Q. Let's talk a little bit further about your
13 health system and focus on the hospitals. Lakes
14 Region, does it have any certain designations that
15 it operates with?

16 A. Yes, we do.

17 Q. Would you summarize those for the Court,
18 please?

19 A. We have a sole community hospital status.

20 Q. What does that mean, sole community
21 hospital status?

22 A. Medicare looks at certain hospitals
23 because of their geographic location and the
24 dependency of the population in that area on that
25 particular institution. That they make certain

1 adjustments in the payment system to make sure
2 that access isn't compromised, and we're one of
3 two sole community hospitals in New Hampshire.

4 Q. Does the case before the Court involve
5 Medicare at all?

6 A. Not directly, but the Medicaid program is
7 overseen by CMS, Centers for Medicaid and Medicare
8 Services.

9 Q. When we talk about the financial issues,
10 they pertain to Medicaid specific decisions; is
11 that right?

12 A. Correct.

13 Q. In addition to the designation you just
14 described and the purpose for it, what other
15 designations does Lakes Region have?

16 A. It's a rural referral center under
17 Medicare as well.

18 Q. What does that mean?

19 A. Which, again, is part geography and part
20 reflects a certain size and intensity of service
21 that we provide the population. That the
22 population somewhat depends on, if you will, the
23 secondary services that we would provide. We're
24 one of three in New Hampshire.

25 Q. As a practical matter, what is the

1 significance of those designations with regard to
2 the patients that you serve?

3 A. I think they're reflective that there's a
4 high dependency in our service area on our
5 institution for hospital services and that the
6 socio-demographics of the area are more adverse
7 than you might otherwise expect.

8 Q. In what way is Franklin Hospital different
9 than Lakes?

10 A. Franklin Hospital is a critical access
11 hospital.

12 Q. And what does that mean?

13 A. A critical access hospital is, again, a
14 Medicare designation. The Medicare designation is
15 provided to address a couple of issues. One is,
16 again, geographic. A second aspect of this is
17 socio-economic and healthcare needs of a
18 population. And the third is fundamentally
19 dealing with financial actuarial risk. Because of
20 the size of these hospitals, that their ability to
21 absorb certain financial risks under the payment
22 system that the larger hospitals take is more
23 limited because they don't have the volume to
24 offset the actuarial variability.

25 Q. Which of the institutions, Lakes Region or

1 Franklin, has been more directly impacted by the
2 Medicaid changes?

3 A. Lakes Region.

4 Q. Systemwide how many employees does LRG
5 Healthcare have?

6 A. We have approximately 1,200 FTEs, which is
7 about 1,600 persons.

8 Q. FTEs?

9 A. Full-time employees.

10 Q. And the number of people who actually show
11 up from time to time is what number?

12 A. Approximately 1,600.

13 Q. Can you describe for the Court what your
14 primary service area is for Lakes Region?

15 A. Generally, it's the central part of the
16 state, which is described generally as the Lakes
17 Region, and the Twin Rivers area. More
18 specifically, the service area is generally the
19 area where we serve a community. The majority or
20 plurality of volume comes from there to our
21 hospital.

22 There are other definitions that are used.
23 It's not a single standard.

24 Q. Does every hospital, at least the
25 plaintiffs in this case, have a primary service

1 area?

2 A. Absolutely.

3 Q. Are you familiar with the Medicaid
4 population as it exists in your primary service
5 area?

6 A. I am.

7 Q. I would like you to look, sir, at what's
8 been marked as a full exhibit, Plaintiff's Exhibit
9 50. Sir, do you recognize that document?

10 A. I do.

11 Q. What is it?

12 A. It's the New Hampshire Medicaid annual
13 report for state fiscal year 2010.

14 Q. Is that a report you're familiar with?

15 A. This report I am.

16 Q. How often is it produced?

17 A. Each fiscal year there's a report, to my
18 understanding.

19 Q. Would you turn your attention to page 11?
20 Do you see the graphic known as figure 10?

21 A. Yes, I do.

22 Q. There's a reproduction of that on the
23 board in front of you? I'm sorry, would you
24 answer audibly?

25 A. Yes. I'm sorry.

1 Q. Thank you. Would you identify on that
2 map, sir, where your service area is located?

3 A. It's the service area of Laconia and
4 Franklin, which is sort of an orange color to the
5 center of the state -- a darker orange.

6 Q. And this chart contained in the state's
7 report says it's the Medicaid enrollees as a
8 percent of total population; is that correct?

9 A. It does. Yes.

10 Q. What is the Medicaid percent of population
11 for the Laconia service area referenced on this
12 chart?

13 A. 13 percent.

14 Q. And what is the total number as counted by
15 the state?

16 A. 6,372.

17 Q. For Franklin what is the percent of
18 population that is Medicaid enrolled?

19 A. 16 percent.

20 Q. And what is the number there?

21 A. 2,773.

22 Q. Is it a fair summary, sir, that those two
23 populations added together constitute the Medicaid
24 population you try to serve in your primary
25 service area?

1 A. Yes, it does.

2 Q. Do you serve Medicaid patients from
3 outside your primary service area?

4 A. We do.

5 Q. How does that occur?

6 A. For certain services that other
7 hospitals -- particularly in our area critical
8 access hospitals that don't provide something like
9 vascular surgery might come to our hospital
10 because there isn't a source in their local
11 community.

12 Q. So it's not an exclusive primary service
13 area, and you will treat Medicaid patients that
14 come from other parts of the state? Is that true?

15 A. Right. That is true.

16 Q. Just to summarize the data from this chart
17 for some of the other plaintiffs in this case, do
18 you see the Lebanon area?

19 A. I do.

20 Q. Is that where Dartmouth-Hitchcock has its
21 primary service area?

22 A. Yes.

23 Q. What percentage does it have of
24 population?

25 A. 7 percent.

1 MR. O'CONNELL: I have another copy that
2 the Court might find more useful than the chart.
3 The defendants already have it. I'll give the
4 witness a copy of something that might be a little
5 more readable.

6 Q. So, I'm sorry, I was asking you about
7 Dartmouth-Hitchcock. You said 7 percent?

8 A. Yes.

9 Q. And the actual number for that area?

10 A. 4,527.

11 Q. Does Dartmouth-Hitchcock have a role
12 beyond its primary service area that is recognized
13 by the other hospitals like Lakes Region?

14 A. Yes, they do.

15 Q. What is their role?

16 A. Their role is really as the only statewide
17 tertiary center in the state. They provide
18 certain services that aren't available elsewhere
19 that otherwise you might have to go to another
20 state to find.

21 Q. When you say tertiary care center, can you
22 describe what that means?

23 A. Actually, tertiary refers to a complexity
24 and intensity of services. Like an example that
25 might be common would be open heart surgery, which

1 isn't necessarily exclusively at Dartmouth, but
2 there may be certain research. And there's
3 another term called cortenary services, which is
4 even higher, the types of things you expect to
5 find in a teaching institution where they do
6 research.

7 Q. Are you familiar with the term safety net
8 hospital?

9 A. I am.

10 Q. What does that mean?

11 A. It means that it's a hospital that has a
12 role of providing access where there may be no
13 other source to. And for us there are times when
14 Dartmouth serves that purpose for our community.

15 Q. Would you look at the area on figure 10 of
16 Exhibit 50 for Keene? Do you see that reference?

17 A. I do.

18 Q. Is one of the plaintiff hospitals located
19 in Keene?

20 A. Yes.

21 Q. Which one is that?

22 A. That's Cheshire Medical Center.

23 Q. What is the percent of population of
24 Medicaid enrollment for Keene?

25 A. 11 percent.

1 MS. SMITH: Your Honor, this is outside
2 his personal knowledge. He can testify to what
3 the page says, but I don't know that he has
4 personal knowledge.

5 THE COURT: I agree.

6 MR. O'CONNELL: I'm just trying to set it
7 up to move it --

8 THE COURT: I know, but you can cover in
9 one question probably ten minutes all of this.

10 Does that chart fairly represent the
11 percentage of Medicaid patients by geographic
12 distribution as depicted?

13 THE WITNESS: Yes.

14 THE COURT: Super.

15 MR. O'CONNELL: Thank you.

16 Q. Sir, have you tried to for purposes of
17 this case calculate the portion of revenue that
18 Lakes Region -- LRG Healthcare, the system,
19 derives from Medicaid services?

20 A. Yes.

21 Q. And where did you perform that calculation
22 or where is that calculation located? Is that in
23 an affidavit that you prepared?

24 A. It is in the affidavit that we submitted.

25 Q. I turn your attention and the Court's

1 attention to Exhibit 76.

2 THE COURT: If it's easier for you, Mr.
3 O'Connell, I can see it.

4 MR. O'CONNELL: You can? Thank you, your
5 Honor. We weren't confident we could get the
6 technology right so we have paper, too. Thank
7 you.

8 Q. Mr. Lipman, is this a copy of a
9 declaration that you prepared and submitted in
10 connection with this case?

11 A. Yes.

12 Q. Does it contain true and accurate
13 calculations that you prepared concerning this
14 case?

15 A. It does. With the supplemental affidavit
16 submitted, 2 and 3.

17 Q. You have submitted two other declarations
18 in this case?

19 A. Yes.

20 Q. We'll talk about that. Together those
21 three declarations you believe are accurate?

22 A. Yes.

23 Q. Okay. Would you turn your attention, sir,
24 to the calculations contained in table 1 on page
25 5? Did you perform these calculations, or were

1 they done under your instruction?

2 A. I supervised.

3 Q. Okay. Would you summarize for the Court
4 the amount of revenue that is generated on an
5 annual basis through Medicaid services at Lakes
6 Region as of last year?

7 A. 10.31 percent.

8 Q. And how has that changed from the prior
9 four years represented on the chart?

10 A. It's increased from 8.15 percent in 2006
11 to 10.31 percent in 2010.

12 Q. You can put that aside for the moment.
13 Can you summarize for the Court the nature of the
14 Medicaid program as it relates between the state
15 and the federal government, just generally?

16 A. It's a partnership between the state and
17 the federal government which has funding coming
18 from both the state and the federal government.
19 It has a categorical approach as serving certain
20 distinct populations, some based on finances in
21 terms of their poverty level, and some based on
22 certain categories, like women and children, the
23 blind, disabled.

24 Q. The state provides some of the funding for
25 the Medicaid program; is that right?

1 A. They do.

2 Q. And what has traditionally been the source
3 of that funding?

4 A. A large portion has been the Medicaid
5 enhancement tax.

6 Q. And who is responsible for paying the
7 Medicaid enhancement tax?

8 A. Hospitals.

9 Q. Does the federal government provide any
10 funding for the state's -- New Hampshire's
11 Medicaid program?

12 A. It does.

13 Q. Generally speaking, what is the nature of
14 that funding?

15 A. It's a matching, generally.

16 Q. When you say matching, would you describe
17 what that means?

18 A. The money that would be put up on behalf
19 of the state, whether it came from Medicaid
20 enhancement tax or what have you, would be matched
21 generally on a 50/50 basis between the state and
22 federal government in our instance.

23 Q. Who administers the Medicaid program in
24 New Hampshire?

25 A. The Department of Health and Human

1 Services.

2 Q. Does the federal government have any role
3 in administering the program?

4 A. Yes. They supervise the operation of the
5 program, and it generally is done through what's
6 called state plan amendments or SPAs.

7 Q. What is the division of the federal
8 government that has responsibility for overseeing
9 the Medicaid program in New Hampshire?

10 A. Centers of Medicaid --

11 MS. SMITH: Objection. It calls for a
12 legal conclusion.

13 MR. O'CONNELL: I'll withdraw it.

14 THE COURT: Oh, heavens. Everybody
15 understands it anyway.

16 MR. O'CONNELL: Okay.

17 Q. We use the term CMS. That's Center for
18 Medicaid Services?

19 A. That's right.

20 Q. All right. Are you familiar, sir, with
21 the requirements of how the state is to set
22 reimbursement rates for Medicaid?

23 A. In terms of -- yes. I guess in terms of
24 the process that is supposed to take place there's
25 a standard which relates to economy, efficiency,

1 quality and access.

2 Q. I would like you, sir, to turn your
3 attention to Exhibit 49, which I will put in front
4 of you in a second. I just need to confirm
5 whether this is a full exhibit because it's not
6 marked as such. Yes, it is. Would you identify
7 that document, sir?

8 A. It's titled The New Hampshire Department
9 of Health and Human Services Office of Medicaid
10 Business Policy, Orientation to Medicaid and CHIP
11 Program, State Fiscal Year 2012-2013 Budget
12 Presented to Sante Fe's Medicaid Overview April 7,
13 2011.

14 Q. Would you turn your attention to page 13,
15 please? Do you have that in front of you, sir?

16 A. I do.

17 Q. Have you seen this document before today?

18 A. I have.

19 Q. Do you see that there's a reference to 42
20 CFR 447.252(b)?

21 A. Yes.

22 Q. Does this placard accurately represent
23 what your understanding is, sir, for what is to be
24 included in a state plan --

25 A. It does.

1 Q. -- for Medicaid?

2 A. It does.

3 MS. SMITH: Objection. It calls for a
4 legal conclusion and it's leading.

5 THE COURT: Overruled.

6 Q. The first point, sir, says: Must allow
7 all parties to understand the rate setting
8 process, the items and services that are paid for
9 these rates; is that correct?

10 A. Yes.

11 Q. That's what it says. Is that your
12 understanding of how the state has compiled a
13 state plan?

14 A. No.

15 Q. In what way has the state deviated from
16 that based on your personal knowledge?

17 A. The methodologies both pre and post
18 regulations have not been publicly provided.

19 Q. The third bullet, sir, says: Section
20 1902(a)(30) requires payments for services to be
21 consistent with efficiency, economy and quality of
22 care. Do you see that reference?

23 A. I do.

24 Q. With regard to the implementation of the
25 rates for this state's fiscal year, are you aware

1 of any effort by the state to maintain efficiency,
2 economy and quality of care at Lakes Region?

3 A. No.

4 Q. There's a reference in the fourth bullet
5 to the upper payment limit, the UPL. Do you see
6 that reference?

7 A. I do.

8 Q. What is that, sir?

9 A. Upper payment limit is a method of
10 enhancing the Medicaid rates that are paid. It
11 allows the state to increase the Medicaid rate up
12 to as high as Medicare.

13 Q. So can you generally describe the way that
14 that payment is determined?

15 A. They would look at -- each individual
16 institution would have its own, if you will,
17 limits based on what it received in payments and
18 how that would be under the Medicare amount if it
19 was paid under Medicare.

20 Q. The next bullet says that: Section
21 1902(a)(2) provides that the lack of adequate
22 funds from state and local resources will not
23 result in lowering the amount, duration, scope or
24 quality of care and services available. Do you
25 see that reference?

1 A. I do.

2 Q. Was there any process which you were aware
3 this year which looked at whether or not the funds
4 provided from state local resources would
5 result -- or not result in the lowering in the
6 amount of duration, scope or quality of care?

7 A. No.

8 Q. Would you turn your attention to page 14
9 of this exhibit, please? You referred to state
10 plan amendments a moment ago, sir. What's your
11 understanding of what a state plan amendment is?

12 A. It's a communication from the state to the
13 Centers of Medicare and Medicaid Services
14 explaining what the change or the proposal would
15 be to provide payment for Medicaid services.

16 Q. The first reference underneath that says
17 public process requirements. Do you see that?

18 A. I do.

19 Q. Sir, were you aware of any notice to Lakes
20 Region General Hospital before the implementation
21 of this year's budget which contained Medicaid
22 reductions?

23 A. Not -- no. Not related to the
24 requirements as I understand them for Medicaid.

25 Q. What do you understand the requirements to

1 be, sir?

2 A. That there be an opportunity -- as
3 similarly described earlier, that there be an
4 opportunity for there to be a notice of what the
5 change is going to be. That the methodology that
6 is going to be changed or adopted, that we see
7 what that be. That there would be a chance for
8 comment. That that methodology and whatever
9 comments would be, that you would see what the
10 final would be. There would be an assessment of
11 what the impact would be to beneficiaries in terms
12 of access both pre and post. That there would be
13 an assessment against the ability of an
14 economically -- reasonably economically efficient
15 provider to be able to provide the services for
16 the rates that are being published.

17 Q. So let me ask: Were there any public
18 notices of which you were aware before the
19 enactment of this budget, July 1st of 2011, that
20 provided you notice of what was going to change
21 with regard to your Medicaid reimbursements?

22 A. No.

23 Q. Were you given any time to provide written
24 input to the decision makers at the Department of
25 Health and Human Services about the intended

1 changes?

2 A. No.

3 Q. Do you see the next bullet there that says
4 assurance requirements regarding access to care?

5 A. I'm sorry?

6 Q. The second item underneath the state plan
7 amendments.

8 A. Yes.

9 Q. Do you see the reference to assurance
10 requirements regarding access to care?

11 A. Yes.

12 Q. Were you aware of any inquiry by the
13 Department of Health and Human Services prior to
14 the enactment of this budget that looked at the
15 implications of access to care to Medicaid
16 patients by this budget?

17 A. No.

18 Q. Do you see the next reference, sir, about
19 CMS?

20 A. Yes.

21 Q. And the state's document says CMS: What
22 impact does proposed SPA have on the ability and
23 access to the service? Do you see that reference?

24 A. I do.

25 Q. Do you see the bullet underneath that:

1 Will reduction in rates allow the state to comply
2 with 1902(a)(30)? Do you see that?

3 A. Yes.

4 Q. Are you aware of anything provided at
5 Lakes Region, any communication from the
6 Department of Health and Human Services to CMS
7 that did an assessment about the availability and
8 access to service of Medicaid patients that would
9 result by the reductions of this budget?

10 A. No.

11 Q. The next bullet talks in terms of: How
12 did the state determine that the Medicaid provider
13 payments are sufficient to enlist enough providers
14 to assure access to care and services in Medicaid
15 at least to the extent that care and services are
16 available to the general population in the
17 geographic area? Do you see that reference?

18 A. I do.

19 Q. Are you aware, sir, of any study done by
20 the Department of Health and Human Services to
21 determine whether the new budget implemented this
22 year would enlist enough providers to assure
23 access to care?

24 A. No.

25 Q. In fact, with regard to access to care,

1 what has Lakes done because of the financial
2 implications at its hospital?

3 A. Thus far, we have sent a letter to 3,000
4 patients who were in our primary care practices,
5 adults, notifying them following the AMA
6 guidelines for discharging separation from a
7 practice, and we excluded from that pediatric,
8 children, and pregnant women, and have effected
9 that policy change of not accepting existing
10 patients or new patients into those practices.

11 We have adopted a policy to reduce our
12 charitable assistance to the community, and we
13 have started to implement a process to restrict
14 what we are terming avoidable elective care to the
15 people in our community.

16 Q. And the point of those actions are to do
17 what, sir?

18 A. It's to try to reflect the reality of the
19 economic conditions that have been pushed on us by
20 the adoption of this budget. That we have to make
21 adjustments so that we continue to make sure that
22 the facility is -- the facilities and services are
23 available to the community to the best extent
24 possible. That what we've been used to providing
25 to the community for access is no longer

1 sustainable based on the economics.

2 Q. The last bullet of this Exhibit 49, sir --
3 I'm sorry, the second to the last: How were
4 providers, advocates and beneficiaries engaged in
5 the discussion around rate modifications? Were
6 there concerns? How did the state respond? Do
7 you see that reference?

8 A. Yes.

9 Q. Was Lakes Region engaged in any
10 discussions concerning access issues or the
11 implications on care because of the state's
12 budget?

13 A. No.

14 Q. The last bullet references: How does the
15 state intend to monitor impact of new rates and
16 implement remedy should rates be insufficient to
17 guarantee required access levels? Do you see that
18 reference?

19 A. Yes.

20 Q. Are you aware of any actions by the
21 Department of Health and Human Services to monitor
22 the impacts to access as a result of the new
23 budget that has been implemented?

24 A. No.

25 Q. I would like to turn your attention to

1 Exhibit for ID 63. Sir, do you recognize this
2 document?

3 A. I do.

4 Q. What does it represent?

5 A. It represents the transaction for state
6 fiscal year 2011 with respect to the MET, the UPL
7 and the DSH, and the impact related to
8 uncompensated care.

9 Q. Do you know the source of this data?

10 A. It's the state's, Department of Health and
11 Human Services, charts that they published
12 associated with the transaction.

13 Q. To your knowledge does this accurately
14 compile the state's data in just this format for
15 presentation here?

16 A. It does.

17 Q. Would you please, sir, tell us what the
18 first line represents -- the first column, excuse
19 me, MET.

20 A. That's the Medicaid enhancement tax.

21 Q. And that's for Lakes Region in fiscal year
22 2011 with what amount, sir?

23 A. \$5,756,123.

24 Q. The next column references what, sir?

25 A. The inpatient UPL payment.

1 Q. Again, UPL was -- you define UPL. What is
2 inpatient UPL?

3 A. In it's simplest form, it would be what
4 the state was able to pay in additional dollars
5 above the preliminary Medicaid rates, but not more
6 than Medicare.

7 Q. And that second column represents for
8 inpatient Medicaid services?

9 A. Correct.

10 Q. Would you look at the third column, sir?

11 A. Yes.

12 Q. What does that number with regard to
13 outpatient UPL payments represent?

14 A. Similar to the inpatient setting, it
15 represents on the outpatient setting those dollars
16 that could be paid that were less than Medicare,
17 or not to exceed Medicare.

18 Q. And in 2011 that number for outpatient UPL
19 was what?

20 A. 1,478,477.

21 Q. The next column is under something called
22 DSH, D-S-H. What is DSH?

23 A. It stands for disproportionate share.

24 Q. And what does a DSH payment represent,
25 generally?

1 A. It generally represents a supplemental
2 payment to reflect the hospital's share of low
3 income Medicaid and uninsured patients that a
4 hospital might serve.

5 Q. And what number is that for Lakes last
6 year?

7 A. 2,965,187.

8 Q. So if you add those columns together under
9 inpatient UPL, outpatient UPL and DSH for Lakes,
10 the payment last year was what?

11 A. 7,064,268.

12 Q. And if you were to compare that against
13 the MET, were you a net payer or receiver of funds
14 say for the year 2011?

15 A. A net receiver under the net payment
16 column of 1,308,145.

17 Q. So that was money that Lakes got in the
18 last budget?

19 A. Correct.

20 Q. What is the next column, sir? It says
21 "uncomp care".

22 A. It's a total calculation of uncompensated
23 care which reflects the cost -- on a cost basis,
24 meaning that it's brought down and evaluated at
25 the true cost to the facility for treating

1 Medicaid patients as well as the uninsured?

2 Q. And that number for state fiscal year 2011
3 at Lakes was what number?

4 A. 11,113,652.

5 Q. Does the state generally track your
6 uncompensated care?

7 A. In terms of the recent transactions, yes.

8 Q. So if you were to take the net payments
9 for UPL and DSH against your uncompensated care,
10 what was the impact in state fiscal year 2011 for
11 Lakes Region?

12 A. Lakes Region was left to absorb \$9,805,507
13 of uncompensated care.

14 MR. O'CONNELL: Your Honor, I would offer
15 this as a compilation, the source data, as a full
16 exhibit.

17 THE COURT: Any objection?

18 MS. SMITH: I would object to it.

19 THE COURT: ID may be stricken on Exhibit
20 63.

21 (Plaintiff's Exhibit No. 63 Admitted)

22 Q. Can you just summarize for the Court --
23 this summarizes the total impact of the ten
24 plaintiffs in this lawsuit in that last column.
25 Just for the record, would you read what that

1 number is?

2 A. You're referring to the total UCC payments
3 or total impact?

4 Q. Total impact.

5 A. Total impact is 196,467,712.

6 Q. And just to be clear, the math for the
7 total impact is done how? Which columns are taken
8 into consideration for total impact?

9 A. The MET, which is column 1; the total UCC
10 payments, which is column 4; and then the
11 uncompensated care column, which is the second to
12 the last column, net to the total impact of 196.

13 Q. It says total UCC payments. In the
14 parlance of what we're talking about, what does
15 UCC stand for?

16 A. It's uncompensated care, which is really
17 the summary of the three columns preceding it.
18 The 130 million was the number that I was
19 referring to earlier, which is why we're here
20 bringing the litigation is because that number
21 doesn't get paid to the ten plaintiffs in 2012.

22 Q. This is just the number for the ten
23 plaintiffs, not all hospitals in the state,
24 correct?

25 A. Correct.

1 Q. Would you turn your attention to Exhibit
2 64, which I will put in front of you? Do you
3 recognize Exhibit 64 marked for ID?

4 A. I do.

5 Q. Would you describe what that document is,
6 sir?

7 A. It describes the New Hampshire state
8 fiscal year 2012 transaction. It's the same setup
9 as the previous chart we looked at. It
10 describes -- for the ten hospitals it shows for
11 UPL, whether it be inpatient, outpatient or DSH,
12 zeros, which means there's a \$130 million
13 difference between 11 and 12.

14 Q. Do you know the source of the data for
15 Exhibit 64?

16 A. It's data published by the state supplied
17 in support of a DSH transaction that has partially
18 taken place in 2012.

19 Q. Is this a summary of that data issued by
20 the state?

21 A. It is for the ten hospitals.

22 Q. Is this exhibit calculated in the same
23 fashion as Exhibit 63?

24 A. It is.

25 Q. None of the ten hospitals in state fiscal

1 year 2012 received any inpatient UPL payments; is
2 that what it represents?

3 A. Yes.

4 Q. Is it the same for outpatient UPL, sir?

5 A. Yes.

6 Q. And for the DSH payment, also true?

7 A. Yes.

8 Q. The total UCC payments for the ten
9 hospitals was zero in state fiscal year 2012?

10 A. Yes.

11 Q. The state still collected the Medicaid
12 enhancement tax for the ten hospitals in state
13 fiscal year 2012?

14 A. The hospitals have paid, yes.

15 Q. And that left column represents what?

16 A. The projected MET payments as calculated
17 by the Department of Health and Human Services
18 based on a form that was provided to the providers
19 to complete and submit to the Department of Health
20 and Human Services.

21 Q. And the total of MET projected by the
22 state for the ten hospitals is what number on this
23 chart?

24 A. 124,522,691.

25 Q. And the net payment column is just a

1 carry-over of the projected MET; is that right?

2 A. Correct.

3 Q. The next column represents what
4 information, sir?

5 A. It represents the uncompensated care
6 calculation for Medicaid loss and uninsured losses
7 as calculated by the department using the
8 information supplied by hospitals on their
9 Department of Health and Human Services input
10 form.

11 Q. The same uncompensated care that you
12 described, except in a different year?

13 A. Yes. Correct.

14 Q. And so the total impact for state fiscal
15 year using the state's source data is what for
16 fiscal year 2012?

17 A. The ten plaintiff hospitals are to absorb
18 \$302,015,867 in uncompensated care.

19 Q. So if state fiscal year 2011 has a
20 baseline of 196 million, what is the net impact to
21 the ten hospitals in state fiscal year 12?

22 A. They will have to absorb another
23 105,548,155.

24 Q. Now, with regard to those changes, the
25 reduction of inpatient UPL at Lakes is a zero.

1 Was there any public notice of that to Lakes
2 Region?

3 A. No.

4 Q. Was Lakes Region provided any opportunity
5 to provide written input to the Commissioner of
6 Health and Human Services about the impact of that
7 decision?

8 A. Not before it was implemented.

9 Q. So after the fact the state has asked for
10 that information; is that true?

11 A. Correct.

12 Q. How about with outpatient UPL, the same,
13 any opportunity before the budget was implemented
14 to provide written comments to the commissioner
15 about the impacts?

16 A. It's the same everywhere.

17 Q. No opportunity?

18 A. No opportunity, no.

19 Q. And with regard to DSH payments, were you
20 provided at Lakes an opportunity to provide input
21 to the commissioner before the implementation of
22 the budget?

23 A. No, we weren't.

24 Q. Were you asked by the commissioner or any
25 of his staff to assess the impact of not receiving

1 UPL or DSH payments in state fiscal year 2012?

2 A. No, we weren't.

3 Q. Are you aware of any analysis done by the
4 state to determine what impacts would occur at
5 Lakes Region because of no UPL payments and no DSH
6 payments?

7 A. I'm not.

8 Q. Sir, have there been other rate reductions
9 that Lakes has experienced since 2008?

10 A. Yes.

11 Q. Did you compile some data from Lakes in
12 your declaration concerning the impacts of that?

13 A. I did.

14 Q. Would you look at your affidavit, Exhibit
15 76, please? While you're pulling it out --

16 MR. O'CONNELL: Your Honor, I would offer
17 Exhibit 64 as a compilation of state data under
18 1006.

19 THE COURT: Any objection?

20 MS. SMITH: I don't think you've
21 identified the source of the state data.

22 MR. O'CONNELL: Oh, okay.

23 Q. Would you identify for the Court the
24 source data for Exhibit 64, please?

25 A. It's the New Hampshire Department of

1 Health and Human Services New Hampshire hospital
2 disproportionate share payments program interim
3 payment plan, December 2011, and the other exhibit
4 is from the Department of Health and Human
5 Services -- New Hampshire Department of Health and
6 Human Services model. It appears to be dated
7 11-4-10.

8 Q. And is that information that was provided
9 to the hospitals from the Department of Health and
10 Human Services?

11 A. Yes.

12 MR. O'CONNELL: I would offer it again,
13 your Honor.

14 MS. SMITH: I'm not going to object to it.

15 THE COURT: The ID may be stricken on
16 Exhibit --

17 MR. O'CONNELL: That's 64.

18 THE COURT: -- 64.

19 (Plaintiff's Exhibit 64 Admitted)

20 Q. Now, looking at --

21 THE COURT: I'm sorry to interrupt, but
22 just so -- as I understand from 64, in fiscal 2012
23 for these ten hospitals there will be no DSH
24 payments?

25 THE WITNESS: That is correct. There is a

1 footnote, your Honor, that talks about the state
2 is withholding a total of 500,000 for payment to
3 deemed hospitals. The state hasn't announced
4 which of the hospitals are deemed yet, so I think,
5 other than \$500,000, at this point there is no
6 money expected to be potentially distributed to
7 the ten.

8 THE COURT: Just because I'll forget if I
9 don't ask it now, in the Hood case -- I'm sure
10 you're familiar with it -- there was a provision
11 for, as I understand it, DSH reimbursement
12 payments that covered up to 70 percent of the
13 reduction in the rate, but that's not the case
14 here?

15 MR. O'CONNELL: Correct.

16 THE COURT: So here you're demonstrating
17 that not only were their rates reduced but their
18 DSH payments were also reduced. So there's no
19 recovery of any part of the reduction in rates
20 through DSH payments. In fact, the DSH payments
21 were reduced as well.

22 MR. O'CONNELL: Your last comment you made
23 is right, and that is our position.

24 THE COURT: What was the last comment I
25 made?

1 MR. O'CONNELL: The last comment that no
2 DSH payments are being made against the losses
3 that they've suffered.

4 THE COURT: So if you get a rate
5 reduction, you also have a DSH reduction.

6 MR. O'CONNELL: Correct.

7 THE COURT: No percentage of the rate
8 reduction is covered under a DSH payment, and in
9 fact the DSH payments were reduced as well or
10 eliminated in 2012.

11 MR. O'CONNELL: That's correct.

12 Q. For the record, let's make this clear.
13 Over here the total UCC payments in 2011 to the
14 ten hospitals is what?

15 A. 130 -- the difference in the total UCC is
16 130,121,922.

17 Q. And the only caveat is there's \$500,000
18 being held aside for some deemed hospitals to be
19 determined?

20 A. Correct.

21 Q. It's not 500,000 per. It's a total
22 amount.

23 A. Correct.

24 Q. So just to do the math, it would be a
25 \$130 million difference year over year and does in

1 fact go with the \$500,000, a little lower?

2 A. It potentially could be that lower budget
3 amount.

4 Q. Thank you.

5 THE COURT: But overall, it's a high
6 percentage reduction.

7 MR. O'CONNELL: Correct.

8 Q. And this happened in one year?

9 A. Correct.

10 Q. You were given -- strike that.

11 THE COURT: Since I'm interrupting anyway,
12 you seem to be conflating notice of legislation
13 with notice of rate reduction. Why?

14 I mean, one might argue -- I'm not sure
15 the state does, but one might argue, of course
16 everybody has notice of pending legislation.
17 Everybody has notice of what the legislature does
18 and the government decides and so forth. Is that
19 what you're addressing?

20 MR. O'CONNELL: No.

21 THE COURT: Because they don't relate, do
22 they?

23 MR. O'CONNELL: They do, but they're not
24 the same thing, so I'll clarify.

25 Q. With regard to the implementation of a UPL

1 reduction, what do you believe the state needs to
2 do with regard to CMS?

3 THE COURT: Well, I can figure that out.
4 What do you mean by they didn't get any notice?

5 THE WITNESS: That's a question to me?

6 THE COURT: Uh-huh.

7 THE WITNESS: In terms of the standard
8 that is required under the Medicaid Act, that was
9 not followed.

10 THE COURT: You never got any notice of
11 rate reduction or DSH payment reductions?

12 THE WITNESS: No more than the
13 methodologies. In fact --

14 THE COURT: I understand all of that
15 but -- all right. Obviously everybody has notice
16 of what the legislature is up to.

17 MR. O'CONNELL: That's correct. If I
18 conflated it, it was not by design.

19 Q. The state plan was not amended prior to
20 the enactment of the budget on these issues, was
21 it?

22 A. Correct. It was attempted to be amended
23 afterwards.

24 THE COURT: Attorney Smith, I gather it's
25 not the State's position that notice of the budget

1 legislation is somehow notice of the state plan
2 amendment proposal?

3 MS. SMITH: No. Because obviously the
4 state plan can't be amended to reflect a change in
5 the budget until the budget is done.

6 THE COURT: Right. Okay. But I mean it's
7 not your position, you're aware of the budget, you
8 were aware of the reduction contained in the
9 budget, therefore you're aware of the impact on
10 rates because you're aware of the budgetary
11 action. That's not your argument in this case?

12 MS. SMITH: No. To the extent budget
13 action requires the state plan amendment, we'll
14 show that the state plan amendment was
15 subsequently done.

16 THE COURT: We all agree that for an
17 adequate state plan amendment you have to comply
18 with the applicable federal regulations.

19 MS. SMITH: Correct.

20 THE COURT: Okay.

21 Q. While you may not have had information
22 about the pending legislation before it was
23 enacted, sir, did you have any information as to
24 how the commissioner intended to change the state
25 plan and how it would affect, therefore, payments

1 to Lakes?

2 A. No.

3 Q. Would you turn your attention to your
4 declaration, Exhibit 76, and specifically table 2?
5 Did you try -- well, strike that.

6 Before the year over year impact we've
7 just discussed, from 2011 to 2012, can you
8 summarize for the Court the types of other rate
9 reductions that apply to Medicaid reimbursement
10 from 2008 forward? Can you summarize that please?

11 A. In dollars, it was approximately
12 through -- projecting to the end of the biennium,
13 it's about \$11.6 million for Lakes Region.

14 Q. By category?

15 A. By category there was a reduction in
16 inpatient rates. There was a reduction in
17 outpatient rates. There was a reduction in the
18 radiology rates. There was a reduction in
19 catastrophic rates. There was a reduction in the
20 payment of cost settlements. That's what I'm
21 referring to in my \$11.6 million number. That's
22 based on that.

23 Q. And let me ask you to look at Exhibit 79
24 marked for ID. What is this document, sir,
25 Exhibit 79?

1 A. It's a summary of rate reductions by
2 category for Lakes Region General Hospital for
3 fiscal years 2008 to 2013.

4 Q. And what is your complaint about the way
5 inpatient rates were reduced during that time
6 period?

7 A. They were reduced with no notice. It was
8 done by an executive order and implemented a ten
9 percent reduction.

10 Q. Do you know the timeline in which the
11 executive order was issued and it was ultimately
12 approved by the legislature?

13 A. It was a matter of days -- or a day.

14 Q. Was there any public notice before the
15 implementation of the inpatient rate reductions
16 which you're aware of?

17 A. No.

18 Q. Did you have an opportunity to comment on
19 the imposition of this rate reduction in Lakes
20 Region?

21 A. No.

22 Q. With regard to outpatient rates, what is
23 your complaint with regard to the way they were
24 reduced?

25 A. They were not only reduced but they were

1 reduced retroactively.

2 Q. When was the reduction announced by the
3 state?

4 A. It was announced in November of 2008
5 retroactive to July 1st of 2008.

6 Q. Do you know the process under which that
7 enactment happened?

8 A. It went through similarly to -- it went
9 through the fiscal committee as a proposal and was
10 adopted.

11 Q. Was there any public notice of this
12 reduction from the department?

13 A. No.

14 Q. Before it was implemented, I should ask?

15 A. No.

16 Q. And were you given an opportunity to
17 comment on the impact that it would have on Lakes
18 if implemented?

19 A. No.

20 Q. With regard to the inpatient rates, you've
21 calculated a number from 2008 to 2013. Do you see
22 that?

23 A. I do.

24 Q. What is that summary?

25 A. 1,015,000.

1 Q. Why have you included that number for 2012
2 and 2013?

3 A. Because it continues in effect through the
4 biennium.

5 Q. You haven't experienced those numbers
6 actually yet, though. Is that a fair statement?

7 A. Right. They're estimates.

8 Q. Unless something changes, you're
9 anticipating that that will be in effect, or
10 something else?

11 A. Correct. These are estimates based on
12 holding volume constant.

13 Q. The outpatient rates reduction from 2008
14 to 2013 is what number, sir?

15 A. Is \$4,136,928.

16 Q. The third item listed on this chart is Rev
17 Code 510. What is that reference, sir?

18 A. It refers to a policy change by the
19 department to no longer recognize, as Medicare
20 recognizes, what might be known as clinic or
21 facility-based services, also known as provider
22 based type payments.

23 Q. Did that have an impact on the amount of
24 reimbursement that Lakes received by that change?

25 A. It did.

1 Q. Do you know when that change was enacted?

2 A. It was enacted in 2010.

3 Q. Do you know the process by which it was
4 enacted?

5 A. It went through an announcement by the
6 department -- just a notice through fiscal
7 committee type of process similar to the other
8 transactions that occurred. We did receive a
9 letter outlining it from the department.

10 Q. When did you get that letter, sir? Before
11 or after enactment?

12 A. I guess we got it before actually the
13 payments were reduced. I guess from a legislative
14 history standpoint there was an attempt to
15 eliminate that in a prior year legislatively
16 through the legislative process, but effectively
17 we received a notice after the policy decision was
18 already made.

19 Q. Were you given a 30-day opportunity to
20 provide written commentary as to the impacts of
21 this change at Lakes Region?

22 A. No.

23 Q. The next item is -- oh, sorry. The amount
24 that you have calculated for the period 2008
25 through 2013 is what, sir?

1 A. 4,213,492.

2 Q. The next item is outpatient radiology. Do
3 you see that reference?

4 A. Yes.

5 Q. What is the change that you reference in
6 there?

7 A. The state implemented a change -- it was
8 in common with the 510 code change -- that advised
9 us that they would no longer pay a percentage of
10 cost as defined under what we call a cost report,
11 but rather they would pay us off a fee schedule.

12 Q. How were you provided notice of that
13 change?

14 A. The same process as the 510.

15 Q. Were you given a 30-day opportunity to
16 provide written comments to the commissioner about
17 the impacts of that change?

18 A. No.

19 Q. Were you aware of any assessment done by
20 the Department of Health and Human Services
21 concerning the impact at Lakes for that change?

22 A. No.

23 Q. How about with regard to the other three
24 items that we just described, any assessment by
25 the department as to the impact at Lakes?

1 A. No.

2 Q. And the total for the outpatient radiology
3 impact for the period 2008 to 2013 is what, sir?

4 A. \$497,049.

5 Q. Have you -- can you describe the next
6 item, which is referred to as catastrophic
7 payments? What does that refer to?

8 A. It's a policy where the normal inpatient
9 payment would be so below what the actual charges
10 were. There's a certain set of criteria that when
11 the payment was so extraordinarily small that
12 there would be a small supplemental payment. It's
13 also sometimes known as kind of like an outlier
14 payment. And the last time we received those was
15 the figures that are on the chart here.

16 Q. What is the process by which that change
17 was implemented?

18 A. It follows a similar pattern as the
19 others. It's basically a policy decision brought
20 through the legislature. But we didn't get to
21 participate in any process that conforms with the
22 Medicaid requirements.

23 Q. Were you given a 30-day notice to provide
24 written comments?

25 A. No.

1 Q. Were you aware of any assessment done by
2 the department as to the impacts of this change at
3 Lakes?

4 A. No.

5 Q. And the total for that catastrophic
6 payment reduction for the period 2008 to 2013 is
7 what?

8 A. 446,032.

9 Q. The last item refers to outpatient
10 settlements. What is the issue with regard to
11 outpatient settlements?

12 A. The hospitals file a report called a cost
13 report and that defines the costs that we've
14 incurred in treating Medicaid patients using a
15 methodology that CMS uses to define Medicare cost.
16 And on an interim basis the state pays hospitals a
17 percentage of what they bill, and then there's
18 sort of what we call a true-up where they compare
19 what they paid versus what would be a percentage
20 of cost, which is currently for the ten hospitals
21 at 54.04 percent of cost. So they compare what
22 they paid on an interim basis with what that 54.04
23 percent of cost is as defined under the cost
24 report, and if there's a balance that's owed to
25 the provider, which is the case with Lakes, that

1 money is supposed to be what we call settled or
2 paid to the provider.

3 Conversely, if a provider -- if they've
4 paid the provider too much, the provider would owe
5 money back to the state.

6 Q. And do you have any commitment from the
7 state as to when those outpatient settlements will
8 be paid to Lakes?

9 A. As I understand the budget that was just
10 adopted, they talked about paying it in some
11 future fiscal year with no commitment as to when
12 it would be.

13 Q. So as you sit here today, do you know when
14 you will get that cost settlement from the state?

15 A. We do not.

16 Q. What is the impact of that administration
17 of that issue with regard to outpatient
18 settlements?

19 A. Effectively, we're loaning the state,
20 according to my chart, about \$1.26 million.

21 Q. What was the process by which that cost
22 settlement process was changed?

23 A. The process wasn't in effect changed. It
24 was suspended. In other words, whereas they
25 ordinarily would pay out the settlements or

1 receive the payments, that to my understanding any
2 cost reports that are sort of '09 forward aren't
3 going to -- haven't been settled.

4 Q. Were you provided any notice of the
5 suspension of that administration?

6 A. No.

7 Q. Were you given an opportunity to comment
8 as to what the impacts would be on Lakes?

9 A. No.

10 Q. Did the commissioner or anyone on his
11 staff inquire of Lakes before the implementation
12 as to the impact at Lakes?

13 A. No.

14 Q. And the total for these category rate
15 reductions for the period 2008 through 2013 is
16 what number, sir?

17 A. \$11,570,022.

18 Q. How does that relate to the numbers that
19 you're describing with regard to Exhibit 64?

20 A. Well, Exhibit 64 magnifies the impact of
21 these compounding rate cuts.

22 Q. So the numbers that are referenced on 79
23 are independent of the rate cuts referenced in
24 Exhibit 64?

25 A. At the totals line level, yes.

1 Q. There's a reference on Exhibit 79 to the
2 upper payment limit?

3 A. Correct.

4 Q. That was actually covered in Exhibit 64;
5 is that right?

6 A. Correct.

7 Q. What was the source of the data from which
8 you compiled this chart?

9 A. A number of internal sources. Do you need
10 me to walk through each of them or just the
11 general --

12 Q. Just generally. Was it done under your
13 supervision, sir?

14 A. It was done under my supervision using
15 either, in the case of like inpatient rates, the
16 rate in effect times the number of discharges that
17 we had in a particular year.

18 Q. Is it based on Lakes Region data?

19 A. It's based on Lakes Region specific data
20 and Lakes Region cost report information.

21 Q. Do you believe it's accurate?

22 A. I do believe it's a reasonable estimate,
23 yes.

24 MR. O'CONNELL: I would ask that Exhibit
25 79 have the ID stricken, your Honor.

1 THE COURT: Any objection?

2 MS. SMITH: I'm sorry. I'm having trouble
3 hearing him.

4 MR. O'CONNELL: Oh, I'm sorry. I would
5 like to strike the ID from Exhibit 79.

6 MS. SMITH: I'm not going to stipulate to
7 the accuracy, but I will not object to the
8 document coming in.

9 THE COURT: ID may be stricken on
10 Plaintiff's 79.

11 (Plaintiff's Exhibit 79 Admitted)

12 MR. O'CONNELL: One second, your Honor.

13 Q. Mr. Lipman, I would like to change your
14 attention to Exhibit 79, outpatient radiology line
15 item. There was a development last week on that
16 subject, wasn't there?

17 A. Yes, there was.

18 Q. Would you describe what happened last
19 week, please, for the Court?

20 A. The hospitals' CEOs received a letter from
21 commissioner -- from the Commissioner of Health
22 and Human Services advising that they had been in
23 discussions with CMS about SPAs, state plan
24 amendments, that had previously been filed which
25 was not approved by CMS and were advised that it

1 was never the state's intent to convert it to a
2 fee schedule now that they understand that by
3 doing so would mean that those dollars weren't
4 subject to taxation for the MET matching program,
5 the Medicaid enhancement tax.

6 THE COURT: No hope.

7 MR. O'CONNELL: No.

8 Q. Yeah, I don't think we need that level of
9 detail, Mr. Lipman. Let me ask you another
10 question.

11 Has the state taken a position as to
12 whether the outpatient radiology reductions are
13 still in effect?

14 A. They've taken a position that they're
15 going to reverse them.

16 Q. Do you know when you will receive the
17 payments that are referenced on Exhibit 79?

18 A. There was an indication of it being a six
19 to eight week type of time frame.

20 Q. So at least with regard to that item
21 there's been a change in the way it's being
22 administered by the state, true?

23 A. Yes.

24 THE COURT: Outpatient radiology?

25 MR. O'CONNELL: Correct.

1 Q. And so if it is in fact reversed at
2 sometime in the future, you would need to reduce
3 this chart, Exhibit 79, by the amount for
4 outpatient radiology for it to be accurate,
5 correct?

6 A. Correct. By \$497,049.

7 Q. But as you sit here now, you don't have
8 that money and it's been administered this way
9 since 2008?

10 A. Correct.

11 Q. Does Lakes generally receive full
12 reimbursement for the Medicaid services that it
13 provides to patients?

14 A. No.

15 Q. Have you calculated what actual cost
16 ratios Lakes has received, or LRG Healthcare
17 generally, for the types of services it provides?

18 A. Yes.

19 Q. Is that information contained in your
20 declaration, which is marked as Exhibit 76 for ID?

21 A. Yes.

22 Q. Okay. Would you look at table 2 on page
23 6, please? Would you describe for the Court what
24 is calculated here?

25 A. It's simply looking at the costs that we

1 incurred in providing care, comparing it to the
2 payments, looking at that net difference and
3 calculating what we would call a payment to cost
4 ratio.

5 Q. And so in 2006 for inpatient services what
6 was that cost ratio?

7 A. We received -- our payment was worth about
8 49.8 percent of our actual cost.

9 Q. So is it fair to say that would be 49.8
10 cents on every dollar of cost?

11 A. Correct.

12 Q. And for 2007 what happened to that rate
13 reimbursement for inpatient services?

14 THE COURT: Why is that relevant? I mean,
15 inflated costs, you know, nobody pays that.

16 MR. O'CONNELL: Reduction over time, your
17 Honor. And I believe the state's position is
18 going to be that these are institutions that can
19 afford to absorb the cost. If that's not going to
20 be the legal analysis this Court applies, I can
21 move on.

22 THE COURT: Well, but it's all related to
23 the reduction in the rates. I assume the starting
24 presumption is things were fine the way they were.
25 It's the change that's unacceptable.

1 MR. O'CONNELL: And it's been changing
2 over time. That's the only point I --

3 THE COURT: But the change is a function
4 of this is what we used to reimburse. This is
5 what we do now. That's not acceptable. The
6 starting point is it was acceptable, right?

7 So what difference does it make what
8 somebody says it costs to give you a bandage. Ten
9 dollars for the Band-Aid. Well, maybe it is.
10 Maybe it isn't. What difference does it make?
11 You got reimbursed three dollars for it. Now
12 you're getting 50 cents. That's the issue, isn't
13 it?

14 Q. Mr. Lipman, is it fair to say, as the
15 Court has summarized --

16 A. No, it's not. It's a common misconception
17 in the public.

18 What we're really talking about here is
19 the true cost. So whatever our acquisition costs
20 were for the people that we paid out, the actual
21 cost of the Band-Aid, not any -- what we're
22 talking about here is --

23 THE COURT: I've paid for a lot of
24 expensive Band-Aids.

25 A. But what we're talking about here is not

1 the standard comparing it to what would be like
2 published retail rates but actually to the true
3 accounting costs as defined by the federal
4 government in terms of what are allowable costs.

5 So it reflects our -- when you look at any
6 expense item, like labor, it reflects what we paid
7 people in their weekly paychecks. It reflects
8 what we paid Public Service of New Hampshire for
9 electricity. It reflects true costs, not what
10 would be, you know, when you shop or look for --

11 THE COURT: No. I understand, but there's
12 all kinds of indirect overhead that's factored in,
13 and flowers on Secretary's Day gets factored in,
14 and every expense that you can put in there and
15 amortize and all of that. I understand all of
16 that.

17 But here -- isn't the issue here that you
18 were getting a particular Medicaid reimbursement
19 rate, and that was fine, and now you're getting a
20 particular lower Medicaid reimbursement rate and
21 you're claiming that that's not fine because we
22 can't live with it, right?

23 But whether what you claim is your actual
24 cost, factoring in every cost you can possibly
25 assign to a particular Band-Aid, that's not really

1 relevant here, is it?

2 THE WITNESS: Well, I think it is
3 actually, your Honor, because I think -- as I
4 understand how CMS evaluates and monitors the
5 adequacy of the reimbursement rates is that they
6 have to have some relationship to cost and --

7 THE COURT: I thought the claim here was
8 we never got that far. I thought that was your
9 claim, we never got the opportunity to make the
10 case. So whatever the case is is sort of
11 irrelevant, isn't it? It's we never got to make
12 the case.

13 MR. O'CONNELL: I will accept that. And
14 when the state tries to offer information about
15 the ability of these hospitals to fund these
16 reductions, I'll get up on my feet and object
17 because that's the flip side of this issue,
18 whether they have the ability to establish margin
19 to be absorbing these losses on a year over year
20 basis. That's the issue I --

21 THE COURT: I know. I take your point.
22 It never occurred to me that we were going to be
23 litigating whether or not they actually have the
24 ability to absorb the cost.

25 MR. O'CONNELL: We don't think we should

1 be, your Honor. We've just seen it in the papers
2 and are prepared to address those issues, but we
3 could call Mr. Lipman back and --

4 THE COURT: I'm not sure how we could
5 litigate that on a preliminary injunction hearing
6 anyway. That would take a long time.

7 MR. O'CONNELL: That would take a long
8 time, your Honor. I believe that's true.

9 One issue that just was addressed by the
10 Court that I would like to clarify with this
11 witness --

12 Q. Is there a difference between what you
13 described as cost and charges?

14 A. Yes.

15 Q. Would you please describe that for the
16 Court?

17 A. The charges are developed to above the
18 costs that create an opportunity to make a margin,
19 and so if you only --

20 THE COURT: I think at Concord Hospital I
21 paid \$38 or something once when I was in there
22 overnight for a cup of mushroom soup. Now, is
23 that a charge or is that a cost?

24 THE WITNESS: That's a charge. And it
25 might reflect that ten people before you weren't

1 able to pay anything for their soup so they have
2 to set the rate to recover it.

3 THE COURT: And what you're talking about
4 here -- you're saying the costs.

5 THE WITNESS: Correct.

6 THE COURT: As opposed to charges.

7 THE WITNESS: Correct.

8 Q. So that wouldn't include the example the
9 Court gave of flowers that would get amortized for
10 the Secretary. That's not a cost, is it?

11 A. Medicare has a definition of what are
12 allowable costs, and it typically would exclude
13 things that are not considered important to
14 delivering patient care.

15 Q. Okay. I would like to turn your attention
16 to the last topic. Once you learned of the
17 financial impacts that you would be dealing with
18 as a result of the budget change and the over time
19 changes, what process did you go through at Lakes
20 to determine how to deal with it?

21 A. Well, we -- I guess, in summary form, we
22 looked at a number of different options that we
23 could potentially consider on a management team
24 level first.

25 So, for example, obstetrics is a service

1 that we provide to our community. We're one of
2 the last remaining -- we're the only source of
3 obstetrics care in Belknap County, and within our
4 region one of the last to be providing obstetrics,
5 delivering babies. And that service runs anywhere
6 from 50 to 60 percent of our patients are
7 Medicaid, and for each Medicaid delivery we lose
8 approximately \$7,000 over our cost for each baby
9 that we deliver.

10 We considered whether we could do that but
11 ruled that out because there is no option in our
12 community if we no longer do that.

13 Q. What did you actually -- after you did the
14 consideration that you described, what did you
15 decide to do at Lakes to meet the financial
16 circumstances that confronted you?

17 A. We did three things. One has been
18 implemented, one's in the process of being
19 implemented, and another is in development to be
20 implemented.

21 The discharging of adult Medicaid patients
22 from our practices, the adjustment to our
23 charitable care program and the addressing
24 elective -- or avoidable elective care.

25 But just to put it in context, it goes

1 back to the four buckets I talked about earlier.
2 You know, we've exhausted reduction in
3 profitability because we're running in the red.
4 We've pretty much exhausted what we can do in
5 terms of cost shifting. The largest payer in the
6 state has taken a position that they won't absorb
7 any of these Medicaid losses. We've worked with
8 other hospitals to try to improve our
9 efficiencies, and internally ourselves, and we've
10 been left to deal with access as being really the
11 remaining area to try to help overcome the large
12 deficits that we're under.

13 Q. With regard to the closure of the primary
14 practices to Medicaid patients, what do you
15 believe the total impact will be in numbers for
16 the Medicaid population?

17 A. The number of letters that we sent out was
18 3,000, approximately, and we have approximately 87
19 percent of communities' primary care providers are
20 associated with LRG Healthcare. We would expect
21 some percentage of those patients, as well as --
22 you know, we saw earlier there are 9,000 people
23 that are kind of rolling in on Medicaid. That
24 there will be increasing challenge in terms of
25 establishing a regular source of primary care. I

1 think that's --

2 Q. What do you believe the impacts would
3 be -- what are you planning for the impacts to be
4 at Lakes because Medicaid patients will no longer
5 be treated by your primary care physicians?

6 A. Well, in terms of how it will affect the
7 institution? Is that your question?

8 Q. Yes.

9 A. By adjusting the volumes -- we basically
10 are able to provide those services by
11 cross-subsidizing from plus margin services. By
12 reducing the utilization rates we hope to be able
13 to readjust our operations to be able to effect
14 our cost structure.

15 Q. What do you anticipate the impacts will be
16 with regard to the Medicaid patients that will not
17 be seen?

18 A. I think the Medicaid patients in our
19 community are now at higher risk for morbidity and
20 mortality because you can't go from a primary care
21 base of 40 something to maybe six and that there
22 not be any impact in terms of the timeliness of
23 preventative monitoring of services, trying to
24 affect the incidence and prevalence of chronic
25 disease, what have you. I think that our

1 population is at higher risk in our community now
2 for morbidity and less well-functioning
3 disability. And ultimately when chronic
4 conditions are not well managed it can shorten
5 someone's life expectancy.

6 THE COURT: 40 to six what?

7 Q. Could you please explain to the Court what
8 that 40 to six reference was?

9 A. Within our LRG Healthcare structure we
10 have 40 primary care providers, internists, family
11 practitioners, nurse practitioners, who were
12 serving the population that were discharged from
13 the practices.

14 Outside of that, there are six people who
15 are, if you will, in independent practice. And I
16 would add that that constitutes two family
17 practitioners that are in separate locations. If
18 you want me to get into the details of it --

19 Q. Okay. Thank you, Mr. Lipman. The state
20 has taken a position -- and finally to close out
21 here -- that it's your choice to limit these
22 services. The phrase they have used in the
23 pleadings in this case is "vote with your feet".
24 Has that been the experience that you have had at
25 Lakes Region after you announced these changes?

1 A. No.

2 Q. What has your experience been? Please
3 describe that for the Court.

4 A. The Governor made a public statement that
5 could be characterized as criticizing our board of
6 trustees and hospital management for abandoning
7 its mission. He asked that the Attorney General's
8 Office investigate our charitable status, which
9 has been initiated. There were also other
10 interaction of public officials in our community
11 with community leaders trying to get people to
12 apply pressure to us to reverse -- or just plain
13 put pressure on us.

14 Q. With all that, Mr. Lipman, why are you
15 taking the actions of limiting care as you
16 described them?

17 A. Because we have to. Ultimately it's -- it
18 comes down to this. We have our operating margin,
19 our resources, to serve our community. We've been
20 operating in the red. We finished fiscal year 10
21 \$2.2 million in the red.

22 THE COURT: I'm sorry. Fiscal year what?

23 THE WITNESS: Fiscal year 2010.

24 THE COURT: When was the last time the
25 hospital made a profit? Well, if you could just

1 cover that briefly. What's the fiscal year? How
2 do you account for the profit? When was the last
3 time you were profitable? What was it? What's
4 the history?

5 Q. What's the hospital's fiscal year?

6 A. It's the same as the federal fiscal year,
7 so it goes from 10-1 to 9-30.

8 THE COURT: September to October?

9 THE WITNESS: Yeah.

10 Q. It's different than the state's fiscal
11 year?

12 A. The state's fiscal year goes July 1
13 through June 30th.

14 Q. The Court asked when was the last year you
15 had an operating profit.

16 A. Fiscal year 2000.

17 Q. And what is the current deficit you're
18 dealing with?

19 A. We haven't completed our fiscal year 11.

20 THE COURT: I'm sorry. Fiscal year 2000?
21 2000?

22 THE WITNESS: No. 2009.

23 THE COURT: 2009.

24 THE WITNESS: It was approximately
25 \$1 million.

1 A. If I could, just to take the --

2 Q. Please describe it.

3 A. Before the rate cuts came into effect, the
4 hospital had approximately a 2.2 percent operating
5 margin, which was approximately \$4 million in
6 2008.

7 In 2009 it dropped to approximately a
8 million dollars, which can't be fully attributable
9 to the Medicaid cuts, but when you look at the
10 year over year impact and the rate reductions --

11 THE COURT: I'm only asking because it
12 goes to counsel's point about the ability to
13 absorb.

14 A. Sure. So then in fiscal year 10 we ran a
15 \$2.2 million operating loss. In fiscal year 11,
16 which is not subject -- it hasn't -- the audit
17 hasn't been completed so --

18 THE COURT: Well, operating loss -- you
19 know, when you get into these accounting terms you
20 can get into the woods here.

21 Using the same uniform standard, give me
22 the numbers as you report to your board, for
23 example.

24 THE WITNESS: Sure. Net income line --
25 income from operations is the statistic I'm using,

1 and net income would be familiar to the Court.

2 THE COURT: Net income is an arguable
3 concept as well, but what do you report to your
4 board? Hey, we did well this year. We're in the
5 black. What number is that?

6 THE WITNESS: We report two numbers.
7 There's two indicators. One indicator is what we
8 call operating margin. And the other indicator is
9 called total margin, okay?

10 For the year that we completed in 2010,
11 the operating margin was a negative 2.2. The
12 total margin was actually about a \$13 million
13 negative number, okay?

14 And in fiscal year 11 we're projecting
15 that due to some one-time situation that we may
16 actually do a little bit better than fiscal year
17 10. But our structural deficit for fiscal year 11
18 operating margin is approximately about \$4
19 million.

20 And our projection for fiscal year 12 is
21 that we're dealing with an operating margin
22 deficit somewhere between 8 and 12 million that
23 we're trying to adjust for.

24 THE COURT: Thank you.

25 MR. O'CONNELL: One second, your Honor.

1 Thank you, your Honor. Nothing further at this
2 time.

3 THE COURT: All right. Thank you, Mr.
4 O'Connell.

5 Attorney Smith, maybe we should take a
6 break.

7 MS. SMITH: Maybe we should take a short
8 break?

9 THE COURT: Take a short break, yeah.

10 (RECESS)

11 MR. O'CONNELL: Your Honor, briefly before
12 we begin, an internal issue.

13 THE COURT: Sure.

14 MR. O'CONNELL: The state and -- Ms. Smith
15 and I talked about exhibits. We're going to
16 move -- stipulate to admission of all of the
17 affidavits and declarations that are before the
18 Court. We'll take care of that administratively
19 off the record. I was going to ask for an
20 opportunity to do that with Mr. Lipman, but it's
21 unnecessary. Thank you.

22 MS. SMITH: Yeah, we're just going to
23 stipulate that all of our declarations submitted
24 for the preliminary injunction are marked in full,
25 as are all of theirs.

1 THE COURT: All right.

2 CROSS-EXAMINATION

3 BY MS. SMITH:

4 Q. Good morning, Mr. Lipman.

5 A. Good morning.

6 Q. I'm Nancy Smith from the Attorney
7 General's Office.

8 You talked to Attorney O'Connell about
9 actions LRG has taken dismissing some Medicaid
10 patients from your primary care practices,
11 correct?

12 A. Correct.

13 Q. Now, these are doctors' offices, correct?

14 A. Correct.

15 Q. And these are practices that LRG owns,
16 correct?

17 A. Correct.

18 Q. At the department's request after you had
19 taken that action you sent a list of the actual
20 LRG practices that LRG was dismissing Medicaid
21 clients from to the department. Are you aware of
22 that?

23 A. Yes.

24 Q. And there's a container of notebooks up
25 there on the witness stand with you. If you could

1 look at Exhibit 198? We're also going to pull it
2 up onto the screen, but since it's a multipage
3 document it might be easier for you to take a look
4 at in the notebook.

5 A. It's listed as Exhibit 198?

6 Q. Pardon?

7 A. Tab 198?

8 Q. 198. And have you found Exhibit 198, sir?

9 A. I have.

10 Q. Is that the list of practices that LRGH
11 sent to the department as being those that were
12 letting Medicaid clients go?

13 A. It's both the practices and the providers
14 identified, yes.

15 Q. And that's in the chart that is attached,
16 correct?

17 A. Correct.

18 Q. So looking at that chart -- as you said,
19 this is primary care only, correct?

20 A. Correct.

21 Q. And are you aware that Medicaid recipients
22 don't have to designate a primary care doctor?

23 A. Yes. But I think it's -- as any patient
24 under many insurance plans, people do tend to
25 choose a regular source of their primary care. So

1 I think that's fairly common practice.

2 Q. And to the extent that LRGH owns
3 specialist practices, those can still accept
4 referrals for Medicaid patients, correct?

5 A. Yes. However, as I testified earlier, as
6 it relates to specialty care one of the other
7 aspects that we're looking to implement is a
8 limitation on what we're calling avoidable
9 elective procedures.

10 Q. And is that -- so the office visits to
11 these primary care practices that have taken this
12 action, those would have been billed as
13 fee-for-service doctors' offices visits, correct?

14 A. Correct.

15 Q. So those are not on the inpatient rates
16 list we're talking about here, correct?

17 A. That is correct. However, I think the
18 important point to note here is that our name, LRG
19 Healthcare, connotes a system and that we
20 cross-subsidize physician care based on positive
21 margin services and the hospital system itself.

22 Q. But the doctors' offices fees are not on
23 the inpatient rates that we're talking about or
24 the outpatient rates, correct?

25 A. That is correct.

1 Q. So you've dismissed patients from -- your
2 Honor?

3 THE COURT: I thought what he was saying
4 was, if you reduce our income in these areas to
5 this degree we can't support Medicaid patients in
6 our primary care practices.

7 Q. But the rates that are paid to these
8 physicians are not the rates that you're
9 complaining about having been reduced, correct?

10 A. That is correct. Those are the --

11 THE COURT: No. He's saying it's an
12 impasse. In other words, we no longer are able
13 to -- I think we're all getting a little too far
14 down the road on the merits of whether or not this
15 is a good change or not, I suppose. The issue
16 really -- well, I suppose it's a 30(a) claim,
17 isn't it?

18 MR. O'CONNELL: It is, your Honor.

19 THE COURT: But I think that was the
20 point. We can't do it. You haven't taken into
21 account the fact that a substantial amount of the
22 Medicaid patient population will be
23 disenfranchised from the services if these rates
24 are in effect. I think that was the point.

25 THE WITNESS: Yes.

1 MS. SMITH: We'll be discussing that in
2 just a second.

3 Q. LRG -- did you participate in providing a
4 letter to your LRG practices that they were going
5 to send out? Have you seen that letter?

6 A. Yes, I have.

7 Q. And if you can turn to Exhibit 181? It
8 should also be on the monitor in front of you.
9 This is a one-page document, so maybe that would
10 be easier.

11 A. Yes.

12 Q. This isn't addressed to any specific
13 person, but have you -- do you agree that this is
14 an example of the letters that LRGH sent out to
15 its 3,000 Medicaid clients?

16 A. Yes. It's the template version of what we
17 sent out.

18 Q. And in this you list four practices that
19 you know were still accepting Medicaid clients
20 that are also primary care, correct?

21 A. Correct.

22 Q. And two of those, Westside and Newfound
23 Family Practice, are owned by LRGH, correct?

24 A. Correct. They're owned by LRGH, and they
25 also have the distinction of being classified as

1 rural health clinics, which is a distinction
2 reflecting a certain uniqueness with respect to
3 how they're reimbursed to ensure access.

4 Q. And so those two practices get reimbursed
5 at a much higher rate, correct?

6 A. That is correct.

7 Q. And those two practices still had capacity
8 to accept patients?

9 A. Some capacity, yes.

10 Q. And the other two practices, the Health
11 First facilities that you list here, are you aware
12 that those also have a designation as -- or have a
13 designation as a federally qualified health
14 center?

15 A. Correct.

16 Q. And all four of those are required in
17 order to have those designations and get those
18 higher rates that they accept all Medicaid
19 patients, correct?

20 A. Within the capacity of their provider
21 panel size, yes.

22 Q. And are you aware that Lakes Region's CEO,
23 Mr. Claremont, is also treasurer of the healthcare
24 corporation?

25 A. Yes. As well as Lakes Region General

1 Hospital, or LRG Healthcare, provides
2 approximately a 220,000 a year subsidy to help
3 Health First exist, and that was one of the issues
4 that we considered in terms of the options is
5 whether to eliminate that or not.

6 Q. If you could look at Exhibit 190, are you
7 familiar with press coverage of LRGH's actions
8 after those actions were announced?

9 A. Yes.

10 Q. And this appears to be an article that was
11 posted on citizens.com that appeared in a Laconia
12 newspaper, correct?

13 A. Correct.

14 Q. And your CEO, Mr. Claremont, if you go
15 down to the bottom part of this, is quoted as
16 saying, "There is capacity in the general area
17 for affected Medicaid patients to get the services
18 they required, said Claremont, and LRGH has been
19 steering patients into it", correct?

20 A. It does say that. I think it would also
21 be fair to say that the executive director of
22 Health First said they had a capacity at the time
23 of approximately 600 patients and that the two
24 centers, excuse me, the rural health clinics had
25 some capacity as well, but probably less than

1 that, and that we were trying to help people to
2 the best that we could to get a source of primary
3 care where it was available. But that only takes
4 into account the people who are currently now
5 enrolled. It doesn't take into account those to
6 be enrolled in the future.

7 Q. Going back to your declaration,
8 actually -- I'm sorry to be skipping around from
9 documents, but that's Exhibit 77 and it's in
10 paragraph 5 of your November declaration. That's
11 not going to be in ours. We'll pull it up on the
12 screen for you. It's one of the plaintiff's
13 exhibits.

14 MS. SMITH: If I can approach, your Honor?

15 THE COURT: Anytime, Attorney Smith.

16 Q. So if you can go to -- I believe it's
17 paragraph 5 of that document.

18 A. Yes.

19 Q. You've indicated that in deciding who to
20 send this letter to you reached back three years
21 and seven months?

22 A. That corresponded with a computer system
23 conversion for us in terms of our physician
24 practices, and we wanted -- not having a way to
25 know who is currently eligible on Medicaid in any

1 administratively efficient way, we identified
2 those patients who have been on Medicaid within
3 those practices for that time period.

4 Q. So you would agree, wouldn't you, that
5 this may have gone to a lot of people who were no
6 longer on Medicaid?

7 A. I would say that there's some that
8 wouldn't be. I honestly can't estimate whether
9 it's -- what percentage it would be.

10 Q. So if the department was -- and you
11 actually provided a list of names of who you sent
12 the letters to, correct?

13 A. We did. To the commissioner.

14 Q. If the department was able to take that
15 list and cross reference it against currently
16 enrolled Medicaid folks and determined that
17 somewhere maybe in the range of a thousand people
18 out of your list of 3,000, over 3,000, were
19 currently on Medicaid, you were overinclusive by
20 two-thirds, correct?

21 A. I don't agree with the characterization of
22 overinclusive because of the substandard nature of
23 the communication that we would rather
24 over-communicate than under-communicate, but the
25 fact that the state may have found fewer than the

1 3,500 is not entirely surprising, correct.

2 Q. But if the department's research indicated
3 it was something around a thousand or less, you
4 have no basis for disputing that, correct?

5 A. I do not have a basis for disputing that.
6 I would like to add, though, that even if a person
7 didn't have a change -- I mean, if they would have
8 to change a position, which is also an impact that
9 goes beyond just even not having a position.

10 MS. SMITH: Do you have any objection to
11 striking the ID on Exhibit 198?

12 MR. O'CONNELL: No objection on 198, your
13 Honor.

14 THE COURT: ID may be stricken on
15 Defendant's 198.

16 (Defendant's Exhibit 198 Admitted)

17 MS. SMITH: Do you have any objection on
18 striking the identification on Exhibit 181?

19 MR. O'CONNELL: It's a full exhibit
20 already.

21 MS. SMITH: It's full already.

22 Q. And you're aware that there's a John Doe
23 plaintiff in this lawsuit as a Medicaid
24 recipient --

25 A. Yes.

1 Q. -- who has received services at LRGH?

2 A. Yes.

3 Q. And I would like you to look at what we've
4 marked for identification as Exhibit 197, which
5 only identifies him as John Doe. Have you ever
6 seen claims data from the department before?

7 A. I don't typically deal with that level,
8 but I have in my career, yes.

9 Q. Okay. I'll represent to you that this is
10 claims data from the John Doe plaintiff in this
11 lawsuit and it lists a couple of -- several
12 providers on the first page of this.

13 And if you could look at that list and
14 compare it to the provider list that LRGH sent us,
15 which is Exhibit 198, isn't it fair to say that
16 the providers that he is listed as having seen are
17 not any of the providers that dismissed patients,
18 except for one entry for a nurse practitioner at
19 Belknap Family Practice, correct?

20 A. That would be correct.

21 Q. And I may mispronounce the names, but the
22 doctors that he's seen on -- apparently seen on a
23 regular basis, Dr. Mahadevan and Dr. Friedlander,
24 are not on your list of practices that have
25 dismissed patients?

1 A. Dr. Friedlander is listed here as internal
2 medicine. He's actually a hematologist,
3 oncologist. Dr. Mahadevan doesn't practice at our
4 facility.

5 Q. So he's an independent?

6 A. I suspect he's at another facility not
7 associated with us at all.

8 Q. So to your knowledge the John Doe
9 plaintiff has not been dismissed from his
10 physician practices, correct?

11 A. He has -- with respect to treatment --
12 that there's a continuation of treatment for
13 specialty care for all patients.

14 Q. So the answer to my question is he hasn't
15 been dismissed from the physicians he's listed
16 here as having seen at Lakes Region, correct?

17 A. Correct.

18 Q. Going back to one other exhibit you looked
19 at, Exhibit 190, which is the press release.

20 MS. SMITH: Do you have any objection to
21 striking the ID on that?

22 MR. O'CONNELL: It's not a press release.
23 It's a news article. And it's hearsay and we
24 object.

25 Q. You don't have any basis for disputing

1 that your CEO, Mr. Claremont, made the statements
2 listed in this document as quoting him, do you?

3 A. The answer I would say is no, but it's
4 also fair to say that I don't know that these
5 quotes are verbatim.

6 MS. SMITH: I would move to have it
7 admitted -- the ID stricken as a party admission.

8 THE COURT: Objection?

9 MR. O'CONNELL: Objection, your Honor.
10 It's hearsay.

11 THE COURT: Objection overruled. It's an
12 admission by a party opponent. ID may be stricken
13 on Exhibit 190.

14 (Defendant's Exhibit 190 Admitted)

15 Q. And as the chief financial officer of
16 Lakes Region, are you familiar with how much Lakes
17 Region claims on -- you file tax reporting forms
18 with the IRS every year, correct?

19 A. Yes, the 990.

20 Q. And they're called 990s?

21 A. Yes.

22 Q. And you're familiar with those forms?

23 A. Generally, yes.

24 Q. Your name appears on them?

25 A. I sign them, yes.

1 Q. If you could look at Exhibit 146, do you
2 have that in front of you?

3 A. I do.

4 Q. And is this the most recent 990 that Lakes
5 Region has filed?

6 A. Correct.

7 Q. And this is listed as the IRS year 2009,
8 correct?

9 A. Correct.

10 Q. But it covers the period October 1, 2009
11 to September 30, 2010?

12 A. Correct.

13 Q. And going down to the bottom, you
14 submitted this -- did you sign this document?

15 A. I did.

16 Q. And you submitted it on August 15, 2011?

17 A. I did.

18 Q. And to the best of your knowledge are the
19 figures related to the financial status of Lakes
20 Region Hospital that you represent in this
21 correct?

22 A. Yes, but only insofar that it should be
23 acknowledged that the 990 does not follow
24 generally accounting -- GAAP principles. So there
25 are variations between what you would find in an

1 audit report and here based on how the IRS asks
2 for us to complete information, but the
3 information that's contained in here is from our
4 audit reports.

5 MS. SMITH: I would ask that the ID be
6 stricken.

7 MR. O'CONNELL: Objection. Relevance,
8 your Honor.

9 THE COURT: Overruled. The ID may be
10 stricken on 146.

11 (Defendant's Exhibit 146 Admitted)

12 Q. Going to I believe it's page 10, it's part
13 number 9, and I believe it's line 11(d), does
14 that -- do I have the right page?

15 A. 11(d) would be the lobbying line. Is that
16 what you're referring to?

17 Q. Yes.

18 A. Yes.

19 Q. I'm just trying to catch up with you on my
20 computer. Does that show a figure that Lakes
21 Region claims it spent in this fiscal year -- the
22 fiscal reporting year for lobbying expenses?

23 MR. O'CONNELL: Objection. Relevance.

24 THE COURT: Well, you know, I think we're
25 going to spend a lot of time on the 30(a) claims

1 we probably shouldn't spend. But it's relevant,
2 is it not, if -- and I think the state's position
3 is you can absorb these costs. Isn't that your
4 position?

5 MS. SMITH: It also goes to the notice
6 issue, as they claim they didn't have opportunity
7 to comment and they're spending very large sums of
8 money on lobbying at various levels. So I think
9 it's very relevant to the notice issues and their
10 claims that they had no opportunity to comment.

11 THE COURT: I'm not sure it's relevant for
12 that. I mean, they're lobbying all kinds of
13 issues. I thought it was going toward their
14 ability to absorb the rate reduction.

15 MS. SMITH: I understand they have two
16 baskets of claims. If I'm wrong and there's only
17 one issue here --

18 THE COURT: To the extent it goes to the
19 notice, inadequate foundation, objection
20 sustained.

21 If you're offering it as some sort of
22 evidence that requisite notice was given of the
23 rate reductions, the objection is sustained.
24 There's inadequate foundation. I mean, generic
25 lobbying on behalf of a hospital?

1 MS. SMITH: Well, I planned on asking him
2 more questions about --

3 THE COURT: We call that a foundation. If
4 you lay a foundation, we'll think about it again.

5 MS. SMITH: All right.

6 THE COURT: But not lobbying off a form in
7 a generic sense.

8 Q. Does Lakes Region use lobbying?

9 A. I think the expenses that you're seeing
10 reflected here are primarily those portions of our
11 American Hospital Association and New Hampshire
12 Hospital Association dues which for reporting
13 purposes have to be classified as lobbying.

14 I do not recall in that fiscal year that
15 we had a separate lobbyist beyond that. If we
16 did, it was not material.

17 Q. So you are a member of the New Hampshire
18 Hospital Association?

19 A. Yes.

20 Q. And does the hospital association speak on
21 your behalf in various venues?

22 A. They do.

23 Q. And they're authorized to do that?

24 A. Yes.

25 Q. And they show up at legislative hearings

1 and say they're representing all of the hospitals?

2 A. They do. But I would comment that with
3 respect to the 2008 outpatient reduction -- as an
4 example, we got an e-mail from the president of
5 the hospital association advising us that they
6 were completely surprised by the rate reduction
7 that was implemented.

8 Q. We'll come back to that.

9 A. Okay.

10 Q. And we'll give you more opportunity to
11 talk about that.

12 Just looking at another -- so part of what
13 you claimed was lobbying does support the New
14 Hampshire Hospital Association and their going to
15 various venues and making comments on your behalf
16 about various proposed rate reductions?

17 A. Yes. I think in general, but to represent
18 the impacts on our particular community I think
19 they would need to involve us in that
20 specifically.

21 MS. SMITH: Okay. All right. I think
22 we've laid a foundation that the lobbying expenses
23 they claim are at least partially attributable to
24 the carving process, and I would ask that the ID
25 be stricken.

1 MR. O'CONNELL: Objection, your Honor.

2 THE COURT: Sustained. Not from this
3 witness. I think he just said the opposite.

4 MS. SMITH: Okay. All right.

5 Q. In addition to the \$1,006 on page 10 in
6 Schedule C of your 990 --

7 A. What page is that?

8 Q. I believe it's on page 17 of 76.

9 MR. O'CONNELL: I'm sorry. Can you tell
10 me where the page reference is?

11 MS. SMITH: Pardon?

12 MR. O'CONNELL: Where is the page
13 reference, Ms. Smith? I'm not sure I'm following
14 you. Can I look at what you're looking at?

15 MS. SMITH: If you look at the computer,
16 it has the total number of pages.

17 THE COURT: Just going back to what I
18 asked you a while ago, I thought it was not your
19 position that notice of the legislative process,
20 or the budgetary bill that was going through the
21 legislature, that didn't constitute -- that
22 wouldn't constitute notice as required under the
23 Medicaid Act.

24 MS. SMITH: Well, he testified that they
25 had no opportunity to comment before the budget

1 got passed and --

2 THE COURT: No, no. Again, you're both
3 conflating the budgetary process with what the
4 federal Medicaid statute and implementing
5 regulations require.

6 In my mind they're two completely
7 different things. They may be joined at the hip
8 in functional ways, but I thought we agreed
9 earlier in the morning that it was not the state's
10 position that knowledge of the budgetary process,
11 the legislative effort and the impact that would
12 have, that doesn't constitute notice of a plan
13 amendment.

14 MS. SMITH: Of a plan amendment, no.

15 THE COURT: Or a proposed plan amendment.

16 MS. SMITH: But it does constitute notice
17 of the planned reductions because the reductions
18 are set out in the budget process and then they --

19 THE COURT: But how does that help you?
20 How does that help you if that's not adequate
21 notice under the statute or the implementing
22 regulations?

23 MS. SMITH: It goes to his testimony that
24 they have had no opportunity to provide comment
25 about the affect --

1 THE COURT: Yes, but it's, I had no
2 opportunity to provide comment as provided for by
3 the federal statute in implementing regulations
4 which requires prior notice of an intent to reduce
5 the rates which triggers an opportunity to
6 comment.

7 And you seem to be falling back to, well,
8 you knew the budget was in process. You knew the
9 budget impact would be X. Of course you could
10 have commented.

11 Yeah, I guess you could in space or in
12 public venues or write letters to the editor or
13 whatever, but that's not the kind of comment we're
14 talking about here, is it?

15 MS. SMITH: On something -- I think we
16 have to distinguish between actions. On some
17 actions for which there needed to be SPAs, state
18 plan amendments, then there was a separate notice
19 period specifically for the state plan amendment.

20 For something that we think we arguably
21 didn't have to take the state plan amendment that
22 had an affect on rates but they were within the
23 current methodology -- because the methodology is
24 in the state plan, not specific rates.

25 So we contend that the legislative

1 process -- and that's not the same notice process
2 as required for SPAs, and we do contend that the
3 legislative process can provide adequate notice
4 under the federal regulations for a rate change
5 that doesn't require a SPA because it's within the
6 current methodology.

7 THE COURT: All right. That clarifies
8 what I thought we had agreed to earlier, which was
9 different, but okay.

10 MS. SMITH: I understood the earlier
11 questions to be focused on the recent budget cycle
12 in 2011 about the changes to DSH and UPL, and
13 there have been SPAs about both of them.

14 THE COURT: Okay.

15 MS. SMITH: So I would like to proceed
16 with this line of questioning.

17 THE COURT: Certainly.

18 Q. The page that I directed you to in the
19 990, which I believe is page 17 out of 76, in
20 Schedule C, II(a), and this page is about the
21 lobbying expenses by LRG, correct?

22 A. Correct.

23 Q. Could you explain what other lobbying
24 expenses, other than the 106,000 that we talked
25 about before, LRG is also indicating it had on

1 this page?

2 MR. O'CONNELL: Objection. Relevance,
3 your Honor.

4 THE COURT: Overruled.

5 A. What is being calculated here is a
6 limitation by the IRS as to what can be excluded
7 for purposes of falling below the threshold. In
8 other words, I guess what we're documenting here
9 is that LRG Healthcare didn't spend an amount on
10 lobbying that would exceed the threshold where we
11 would have to pay a tax on it. That's what I
12 think we're looking at here.

13 This is just a formula for the deriving --
14 the amounts that would be nontaxable we could have
15 spent a million in each of the '06 through '09
16 years.

17 Q. So you're not -- just so I'm clear, this
18 does not indicate that you spent additional monies
19 over and above the 106,000 in lobbying expenses?

20 A. That's my understanding of it, yes.

21 Q. And are you listed in this 990 as being
22 one of the highest paid officials at LRGH?

23 A. Yes.

24 Q. And it lists your salary as being in total
25 just short of \$270,000, correct?

1 A. That's total compensation, yes.

2 Q. Going to your first declaration -- just
3 let me find the exhibit number on that. I believe
4 it's Exhibit No. 76. That wouldn't be in those
5 white binders. Those are our exhibits. This is a
6 plaintiff's exhibit.

7 MR. O'CONNELL: Yes, it's 76.

8 THE COURT: Just for your planning, I
9 thought we would go to 12:30, if that's all right,
10 and then we'll resume again at 1:30.

11 MS. SMITH: Sure.

12 Q. Do you have a copy of it?

13 A. Yes.

14 Q. In table 1 of that document you indicate
15 that the total Medicaid revenue in 2010 was
16 \$43 million, correct?

17 A. I do in 2010.

18 Q. Let me just catch up to you, sir. If you
19 look at table 2, let me just move some of these
20 exhibits. So looking at table 1, you say -- total
21 Medicaid in 2010, table 1 says the total is 43.3
22 million, right?

23 A. Yes.

24 Q. And in table 2 you indicate the total
25 Medicaid payments for inpatient in the same year

1 was 1,757,000, correct?

2 A. Correct.

3 Q. That's the figure you gave us, 1,757,331
4 in table 2?

5 A. Correct.

6 Q. For Medicaid payments for inpatient?

7 A. Correct.

8 Q. And in table 3 you indicate that
9 outpatient Medicaid payments for the same year
10 were 3,501,676, correct?

11 A. 679.

12 Q. 679?

13 A. Yes.

14 Q. Okay. And in table 4 you indicate that
15 your physicians' Medicaid payments were 2,680,985;
16 is that correct?

17 A. Yes.

18 Q. So these total up to 7,939,995, I believe.

19 A. That's close -- pretty close.

20 Q. Does that look about right?

21 A. Pretty close.

22 Q. Do you want to do the math? Go right
23 ahead.

24 A. Yes, I agree with the figure.

25 Q. And so you got paid 35 million more in

1 Medicaid revenue than your Medicaid payments,
2 correct? That's what you said by your tables.

3 A. No, I didn't, actually. I think that with
4 respect to the payments the 7,939,995 is what we
5 received in cash payments from Medicaid.

6 With respect to totally Medicaid revenue,
7 that represents the gross charges that were billed
8 to Medicaid. It doesn't -- it's a concept of, if
9 you will, what our published charges were. That's
10 what that total is.

11 Q. So when you say your business revenue,
12 you're not being accurate, correct?

13 A. No, I am being accurate. There's net
14 revenue as opposed to gross revenue. We're
15 talking about gross revenue here.

16 Q. So your gross revenue would include monies
17 by insurance companies that you don't get paid
18 because they don't pay you the full charges billed
19 either, correct?

20 A. Well, I think we've got to take a minute
21 to get the concept of revenues down. There's
22 gross revenue which is -- so that we have a
23 uniform rate to value what is provided. And then
24 there are net revenues, which are what we talked
25 about. It would be what the insurance company

1 pays us and what Medicaid and what people don't.

2 Q. You just told us that table 1 in your
3 declaration, as far as revenue figures, are gross
4 figures, right?

5 A. I said they're gross revenue figures, yes.

6 Q. So those don't actually have any relation
7 to what you actually received in payments.

8 A. They're, I think, a common industry
9 standard with respect to identifying what is
10 activity. Because to do otherwise you would have
11 to pay all sorts of different rates and you
12 couldn't evaluate what relative percentage of
13 business or service is being provided to a
14 particular payer. You do it on a net basis.

15 THE COURT: Gross revenue is not actually
16 revenue?

17 THE WITNESS: Gross revenue is, if you
18 will, a statistic. Gross revenue isn't actual
19 revenue unless we collect the full amount, which I
20 think one point is that we don't collect the full
21 amount and on very rare occasions. But in terms
22 of -- without getting into a large explanation of
23 it, I think we have to have a common basis in
24 which we're billing out at -- what we accept as
25 payment will vary based on the payer source.

1 So Medicaid will tell us what they're
2 going to pay us. Medicare will tell us what
3 they're going to pay us. But we negotiate with
4 others against a -- if you will, when you're
5 buying a car there's a sticker price and --

6 THE COURT: Sure, but most people think of
7 revenue as income.

8 THE WITNESS: Well, in terms of GAAP, the
9 way a CFO thinks about it, would not be
10 actually -- net revenue would be --

11 THE COURT: So when you say gross revenue,
12 you're talking about what, the cost of all of the
13 services provided?

14 THE WITNESS: The gross billings
15 associated -- so, for example, if somebody had an
16 appendectomy, it would be the gross charge that
17 would appear.

18 THE COURT: The charge?

19 THE WITNESS: The gross charge.

20 THE COURT: The highest soup cost.

21 THE WITNESS: Right.

22 THE COURT: But not who paid what for it.

23 THE WITNESS: Correct.

24 THE COURT: So it really represents what
25 you would say is the charges they would like to

1 charge and collect for all of the services that we
2 provide.

3 THE WITNESS: An oversimplification, yes.

4 THE COURT: You've got to deal with that.

5 THE WITNESS: Yes.

6 THE COURT: So it's not income.

7 THE WITNESS: It's not income, no.

8 THE COURT: Do you have a number that
9 reflects what you actually took in?

10 THE WITNESS: Well, in terms of the net
11 payments on Medicaid, it would be the 7.9 million
12 for physician services, hospital services, and in
13 and outpatient hospital services. So that would
14 be net revenue to us, if you will.

15 And then you would subtract expenses from
16 that to figure out what your -- what it cost to
17 figure out your profitability.

18 THE COURT: From?

19 THE WITNESS: From any source.

20 THE COURT: No, but subtract what from
21 what?

22 THE WITNESS: Well, if we're talking about
23 Medicaid, as an example --

24 THE COURT: I'm just having trouble trying
25 to figure out, did you do well or didn't you do

1 well?

2 THE WITNESS: We did poorly. Very poorly.

3 THE COURT: We would have charged

4 \$43 million if we -- I mean, that's what we

5 charged, \$43 million for the services we provided.

6 We collected 7 million. That's not too good.

7 THE WITNESS: No. It's not very good at

8 all.

9 THE COURT: Now, of that 43.3 I assume,

10 from what you said earlier, that's some number

11 under GAAP.

12 THE WITNESS: Yes.

13 THE COURT: And it reflects what? Actual

14 cost plus a margin?

15 THE WITNESS: No. Well, the pricing

16 reflects what we -- taking into account discounts

17 and what we ultimately get paid, how high we have

18 to set the rates, given that some people will pay

19 us nothing. Some people will pay us, you know, 10

20 percent. Some people will pay us 90 percent.

21 THE COURT: To me that sounds like it

22 really costs us 43.3 million in charges minus some

23 amount, and we really have to cover that number.

24 THE WITNESS: My recollection for Medicaid

25 costs was that that 7.9 million, when you take

1 into account what we were being paid before, was
2 approximately 19 million in costs associated with
3 that 43 million, leaving us with like a \$9 million
4 hit and then --

5 THE COURT: In other words, charge 43.3,
6 our value of the services we provided that we
7 should be charging you for, but we know we're not
8 going to collect that kind of money.

9 THE WITNESS: Correct.

10 THE COURT: But it really cost us
11 9 million. We have to collect that amount of
12 money.

13 THE WITNESS: We actually --

14 THE COURT: Or 19 million. I'm sorry.

15 THE WITNESS: 19 million.

16 THE COURT: 19 million. It really did
17 cost us that. We have to collect that, and we
18 only got 7.

19 THE WITNESS: Correct.

20 THE COURT: Okay.

21 Q. Allow me to just cover that, Mr. Lipman.
22 The 19 million figure that you've thrown out as
23 being your true cost, that's based on a Medicare
24 cost formula, correct?

25 A. It is for the hospital inpatient, the

1 hospital outpatient, based on the Medicare cost
2 report. As you know, there are certain
3 services -- like if you're familiar with the cost
4 report, like laboratory services which don't flow
5 through that and physician services which don't
6 flow through that. So there are other estimates
7 to develop those costs.

8 Q. But what you are claiming as your true
9 cost is based on a formula set by Medicare?

10 A. Predominantly, yes, if we're following
11 what Medicare defines as a full cost.

12 THE COURT: These are the services we
13 provided. This is what Medicare says we can
14 charge for that to Medicare.

15 THE WITNESS: No. We would say Medicare
16 has defined using -- it would be what Medicare
17 says. Based on what you've spent, this is what
18 the cost would be.

19 I think we're conflating two issues here.
20 One is a Medicare standard with respect to what's
21 an efficient and economical provider versus what
22 we actually experienced.

23 THE COURT: What you actually experienced,
24 yeah. All right.

25 Q. So the Medicare allowable cost doesn't

1 really answer the question of whether you could
2 perform those same services more economically,
3 does it?

4 A. Well, I would say that the answer to that
5 question is that that's never been evaluated. Our
6 contention is that the process of going through a
7 proper amendment would be that that would have to
8 be evaluated, and the adequacy of rates prior --
9 as I understand the Medicare standard, it's that
10 rates are supposed to be set for the efficient and
11 economical providers.

12 So this concept of absorbing losses is I'm
13 not sure the standard that we're supposed to be
14 evaluated against. I think it's the standard
15 against an efficient and economical provider. At
16 least that's in part. And the adequacy of rates
17 at any given point in time -- I mean, if you look
18 at the rates prior to these cuts, you know,
19 there's a lot that's changed in the world that
20 would make a rate that was adequate at one point
21 in time totally inadequate given the meltdown in
22 our economy we've had since 2008.

23 Q. In the Medicare allowable costs you get to
24 include, you know, if you made capital expansions,
25 new equipment, if you want to offer new services.

1 Are all of those things factored into how much
2 money you spend to determine your allowable costs?

3 A. Here again I think that the costs --
4 capital costs are in that, but we don't -- New
5 Hampshire does not have a standard as to what is
6 an acceptable level of expenditure.

7 We would contend that what we've spent is
8 in the efficient and economical category, but we
9 haven't had a chance to make that case.

10 Q. And Medicaid is not the only source of
11 what you've identified as being this total huge
12 number of uncompensated care that you weren't paid
13 for, is it?

14 A. Correct.

15 Q. And that includes all of your charity care
16 to the uninsured, correct?

17 A. Correct.

18 Q. And you also claim on your 990 that you
19 were losing money providing services on Medicare;
20 isn't that correct?

21 A. That's correct, but a much lower number.

22 Q. Is that also included in your
23 uncompensated care?

24 A. No. Medicare is not in that.

25 Q. And so prior to the recent budget session

1 in 2011 -- or let me just ask you that in a
2 different way.

3 So what you're really complaining about
4 here is that with the changes in the 2011 budget
5 regarding not receiving DSH or UPL payments that
6 is what has broken the camel's back -- the straw
7 that broke the camel's back, correct?

8 A. That is correct, but I think the adequacy
9 of rates in prior periods given the changes in the
10 economy and the changes in our economic condition
11 are a real issue that we've never really had a
12 chance to put input on.

13 Q. You could have -- you weren't complaining
14 before the recent budget session.

15 A. We have complained in the public policy
16 arena for a long time. We are a community, in
17 particular, that has a more challenging
18 socio-demographic population than the state at
19 large by a good factor.

20 Q. And you testified earlier that the New
21 Hampshire Hospital Association does speak on your
22 behalf, correct?

23 A. They do.

24 Q. And in regards to -- take a look at
25 Exhibit 154. That's back in the white notebooks.

1 Before we talk about that specific document, I
2 have some foundational questions.

3 You testified about outpatient and
4 inpatient reductions at fiscal committee meeting
5 in November of 2008. Do you recall that
6 testimony?

7 A. I do.

8 Q. Now, were you aware that those were only
9 effective for the rest of that biennium?

10 A. I would like you to repeat your question.

11 Q. Were you aware that the actions taken by
12 fiscal were only effective for the rest of that
13 state biennium, and that if those rates -- let me
14 just add a little bit more -- and that if those
15 rates were going to be carried forward something
16 else had to happen?

17 A. I would say that with respect to the fact
18 they were carried forward I am not aware that
19 there was an opportunity to participate in a
20 process that follows Medicaid statutes with
21 respect to commenting on future years.

22 Q. And so if those rates were part of the
23 2010 and 11 budget that started in early 2009, if
24 those, the rates being carried forward, were part
25 of that, you weren't aware that you have an

1 opportunity to comment for the budget cycle?

2 A. Well, I think -- as your Honor, the
3 honorable judge, had said earlier, I think there's
4 a distinction between the budget process and what
5 we're coming forward with with respect to what's
6 required under the Medicaid statute. And in none
7 of those processes did we get to have an
8 opportunity to look at before and after type of
9 rates and methodology adjustments, how it would
10 affect us as an economical or efficient provider,
11 how did that rate compare to that. We never got a
12 chance to talk about specific beneficiary
13 implications of that. We never got a context of
14 how that rate going into future years would affect
15 access given changes in the economy and other
16 things affecting us.

17 I mean, I think, you know, to say that the
18 budget process was a lot in the open, we're not
19 arguing that point. We're arguing the point with
20 respect to what's required under the Medicaid Act,
21 that that wasn't followed, and it still hasn't
22 been.

23 Q. If you could just go to page 3 of the
24 exhibit that I just showed you, which is
25 testimony -- which appears to be House division

1 finance testimony on page 3, testimony by Leslie
2 Melby. Does that appear to be correct?

3 A. That is labeled House Finance Committee
4 testimony on March 17, 2009.

5 Q. And page 3 is testimony by Leslie Melby,
6 correct?

7 A. Correct.

8 Q. Do you know who Leslie Melby is?

9 A. I do.

10 Q. Who is he?

11 A. Leslie is the Vice President of State
12 Affairs, I believe is her title -- of State
13 Governmental Affairs.

14 Q. And when she appeared on March 17, 2009,
15 at the first paragraph, who did she say she was
16 there representing?

17 A. I guess, to be directly responsive to your
18 question, she was representing the acute care
19 hospitals of the state.

20 Q. And you're one of those.

21 A. We are.

22 Q. And so she was there representing you?

23 A. In the budget process. It's distinct from
24 the Medicaid regulatory requirement process.

25 Q. And in the second paragraph she indicates

1 that the budget was carrying forward the November
2 2008 rate changes, correct?

3 A. I'm sorry. Which page are you on?

4 Q. That's still on page 3.

5 A. And what paragraph again, please?

6 Q. I believe it's the second paragraph down.

7 A. She's relating in that paragraph trends
8 that are occurring between '99 and 2006, if that's
9 what you're referring to.

10 Q. And in about the middle of that paragraph
11 she indicates that HB-1 freezes current provider
12 reimbursement rates, which means the 2009 cuts
13 will be carried forward into the next biennium,
14 correct?

15 A. I don't see that on the page you're
16 referring to.

17 Q. It's in about the middle of the paragraph.

18 A. That's on page 2.

19 Q. Oh, I'm sorry.

20 A. I think. If it's the paragraph you're --
21 you've got that up on the screen. The paragraph
22 I'm reading here talks about 15 years of -- the
23 rate hasn't been updated for 15 years. That's not
24 what I think you're referring to.

25 Q. No. It's the paragraph --

1 MS. SMITH: If I could approach, your
2 Honor?

3 THE COURT: Anytime, Attorney Smith.

4 Q. It's at the bottom of the page. If you
5 could go back to the first page of her testimony
6 and about the middle of this paragraph.

7 A. Okay.

8 Q. Where it says HB-1 freezes?

9 A. Yeah. I see that.

10 Q. Okay. So I read that correctly?

11 A. Yes, you have.

12 Q. And then she goes on to talk about the
13 negative impact on the hospitals, doesn't she?

14 A. She does. But in respect to the standard
15 and being able to do the facility and geographic
16 specific aspect, that's not in there, and I don't
17 think it would completely satisfy the Medicaid
18 regulations.

19 Q. And going forward, if you would look at
20 Exhibit 156. This appears to be testimony to the
21 senate finance committee in February of 2009
22 regarding the uncompensated care funds and the MET
23 tax, correct?

24 A. Yes.

25 Q. And that's submitted by Mr. Ahnen from the

1 hospital association, correct?

2 A. Yes.

3 Q. And he was there representing the state's
4 32 acute care hospitals, right?

5 A. That's what it says here. It says
6 community and specialty action.

7 Q. So there's some more facilities included
8 in the hospital association other than just acute
9 care hospitals, correct?

10 A. There's two rehab hospitals, to my
11 understanding, and one psychiatric hospital.

12 Q. So before the budget was passed he was
13 there providing testimony on behalf of the
14 hospitals about the proposed changes to DSH and
15 MET, correct?

16 A. Yes.

17 Q. And if you look at Exhibit 158, this is
18 dated April 21, 2011, and again, this appears to
19 be written testimony by the hospital association
20 submitted to the legislature during the budget
21 process. Is that a fair characterization?

22 A. It's a fair characterization, yes.

23 Q. And they were there representing, again,
24 the state's 32 acute care community and specialty
25 hospitals, correct?

1 A. Correct.

2 Q. And one of those is LRGH?

3 A. Correct.

4 MS. SMITH: I have just a few more
5 questions comparing his more recent declaration to
6 his original declaration, but it might be more
7 than a minute or two.

8 THE COURT: Well, why don't you go ahead.

9 MS. SMITH: Pardon?

10 THE COURT: Go ahead.

11 Q. Do you have all three of your declarations
12 there in front of you?

13 A. I do not. I have Exhibit 76, which I
14 believe is the initial one.

15 Q. Your most recent one is Exhibit 78, that's
16 that one, and your second one is here, and I
17 believe you have the first one.

18 A. Correct.

19 Q. And in the table that you have -- in
20 Exhibit 78 in table 5 you indicate that the
21 cumulative total of what you are claiming as the
22 impact of the rate reductions is \$19,000,768,
23 correct?

24 A. That's correct. Because we're excluding
25 upper payment limit as compared to the earlier

1 testimony, yes.

2 Q. Okay. And that was a figure -- and going
3 back to your first declaration, which I believe is
4 this one, which is 76?

5 A. Yes.

6 Q. And in table 5 of Exhibit 76 you had
7 initially claimed that your cumulative loss was
8 \$33,670,000, correct?

9 A. That's what's there, yes.

10 Q. And the only change you say between your
11 third declaration and your first declaration is
12 that the upper payment limit has been taken out of
13 your 2010; is that correct?

14 A. Not exactly.

15 Q. Or 2011. Excuse me.

16 A. That's one factor. The other one is that
17 this is specific to Lakes Region General Hospital.

18 Q. So table 5 is just Lakes Region General
19 Hospital; whereas table 5 in your initial
20 declaration included outpatient and physician? Is
21 that what you're saying?

22 A. Let me restate that. It's inpatient,
23 outpatient and physician for Lakes Region General
24 Hospital.

25 Q. If you could clarify for me which one

1 you're talking about?

2 A. The most -- the one in 78 with the ID.

3 Q. 78?

4 A. 78.

5 Q. Is all of them?

6 A. 78 is the Lakes Region General Hospital
7 physician, inpatient and outpatient hospital.

8 Q. That's all of them?

9 A. That's all of them.

10 Q. And the original was just Lakes Region?

11 A. No. That is LRG Healthcare, which is
12 Lakes Region, Franklin and Alton.

13 Q. And Franklin is a critical care
14 hospital -- is a critical access hospital that's
15 not a plaintiff in this lawsuit, correct?

16 A. It is correct that Franklin Hospital is
17 not here. We're one corporation though.

18 Q. And the rates that you complained about
19 about the 2008 inpatient and outpatient reductions
20 have not been applied to Franklin, correct?

21 A. The radiology was. The cost report
22 settlement was.

23 Q. But can you answer my question? The
24 inpatient and outpatient rate reductions were not
25 applied to Franklin, correct?

1 A. That's correct.

2 Q. And Franklin has received a DSH payment
3 this year, correct?

4 A. It has.

5 Q. How much money did Franklin receive?

6 MR. O'CONNELL: Objection, your Honor.

7 THE COURT: Sustained.

8 Q. But it has received a DSH payment?

9 A. It has.

10 Q. So LRGH has received a DSH payment because
11 of Franklin?

12 MR. O'CONNELL: Objection.

13 THE COURT: I guess it has. It's one
14 corporation.

15 MR. O'CONNELL: Withdrawn. I didn't hear
16 her say LRG Healthcare.

17 MS. SMITH: I don't believe I have any
18 further questions.

19 THE COURT: Any redirect, Mr. O'Connell?

20 MR. O'CONNELL: Briefly, your Honor. Two
21 questions.

22 REDIRECT EXAMINATION

23 BY MR. O'CONNELL:

24 Q. Mr. Lipman, you were asked about the 3,000
25 patients that were notified.

1 A. Yes.

2 Q. Those were historic patients over
3 approximately a three-year window, correct?

4 A. Yes.

5 Q. Have you tried to figure out on a going
6 forward basis the number of Medicaid patients that
7 will not be seen who would otherwise come to the
8 practice?

9 A. We did make an estimate in my affidavit.

10 Q. What is your estimate?

11 A. I would have to reference it.

12 Q. Please do.

13 A. That based on the state's analysis of what
14 they see as the use rates in the report that we
15 looked at earlier, which is Plaintiff's Exhibit
16 50, applying the factors there, that ultimately we
17 would expect in our service area 6,731 patients to
18 access physician services.

19 Q. That would not have that opportunity?

20 A. That may not have that opportunity,
21 correct.

22 MR. O'CONNELL: Thank you. Nothing
23 further, your Honor.

24 THE COURT: All right. Thank you.
25 Anything else?

1 MS. SMITH: No recross.

2 THE COURT: Mr. Lipman, you may step down.

3 You're excused. I appreciate it.

4 Just by way of going forward, I understand
5 you want to put on evidence of the 30(a) claims,
6 and I understand the state probably does, as well,
7 but I gather it's going to be somewhat cumulative,
8 right?

9 MR. O'CONNELL: Yes, your Honor.

10 THE COURT: So maybe we can just hit the
11 highlights of the 30(a) substantive requirements.

12 MR. O'CONNELL: Your Honor, may I ask --
13 when you say 30(a), are you speaking about only
14 the procedural side of it or the substantive
15 impacts?

16 THE COURT: Both.

17 MR. O'CONNELL: We will hit the
18 highlights. We will hit the specific numbers. We
19 will not be redundant with numbers. You will not
20 see --

21 THE COURT: Great, great. And of course,
22 as I've probably made clear at the last hearing,
23 I'm particularly interested in the 13(A) issues.
24 That's what I'm really particularly interested in.

25 I really doubt that I'm going to jump the

1 Supreme Court's claim on the 30(a) issues. I've
2 been looking into it and I've been thinking about
3 it quite a bit, and there's precedent in the First
4 Circuit that basically says that's not a great
5 thing to do when there's a case pending in the
6 Supreme Court that's been submitted on briefs,
7 been fully argued, and is pending resolution. So
8 I doubt that's going to happen.

9 Well, I'll give you the chance to argue
10 it. I'm just trying to be candid so we can
11 fashion the presentation of the hearing. Because
12 obviously at this rate you're going to take a
13 week, not two days.

14 MR. O'CONNELL: We're still going to try
15 to be done by the middle of tomorrow.

16 THE COURT: And I'm trying to help you.

17 MR. O'CONNELL: Yeah, I know you are, your
18 Honor.

19 On the 30(a) issues, though, there is a
20 procedural one, and that's before the Supreme
21 Court. And I understand your analysis to us on
22 that posture, but the substantive issue is not
23 before the Supreme Court.

24 THE COURT: No, I understand. But you're
25 not even going to get there -- if the procedural

1 issue fails, right, you're not going to get there?

2 MR. O'CONNELL: That's not true, actually.

3 At end of the day -- they may comply with the
4 procedural requirements, but at the end of the day
5 they are substantive impact issues.

6 THE COURT: I guess I don't deem the
7 procedural issue as, did you even have standing to
8 be in here complaining about 30(a) issues. If the
9 answer from the Supreme Court is, no, you don't,
10 that's the end of that.

11 MR. O'CONNELL: I understand. Yes, your
12 Honor. I understand. Thank you.

13 THE COURT: But I understand your desire
14 to put on a merits record just in case. I mean,
15 they may come out next week and say you certainly
16 do. Who knows.

17 But by way of streamlining it -- to the
18 extent you're going to hit the same points, I
19 gather -- we don't need to go through all of the
20 background of, you know, where did you go to
21 school and where do you live and all of that.

22 MR. O'CONNELL: I will not. What time
23 does the Court intend to proceed to today?

24 THE COURT: I usually go to 4:30, quarter
25 of 5:00, unless that's a problem with any of you

1 or with any of your witnesses.

2 MS. SMITH: We had understood, I think,
3 that we had three days this week.

4 THE COURT: You did?

5 MS. SMITH: Yes.

6 THE COURT: I have two days on my
7 calendar.

8 MR. O'CONNELL: Yeah, we were noticed for
9 three.

10 THE COURT: Noticed by whom?

11 MR. O'CONNELL: Actually, didn't we find
12 out we have three days on the calendar?

13 THE COURT: Today is Tuesday. Isn't it
14 two days? We have it for two. It's on the docket
15 as two. Other than my patience, it's not
16 critical. I think Thursday -- what do we have?

17 THE CLERK: I think you're available
18 Thursday.

19 THE COURT: I think Thursday is sort of
20 okay.

21 MR. O'CONNELL: That would explain the
22 disconnect, your Honor. We were planning for
23 three, both sides.

24 MS. SMITH: Right. I was just hearing two
25 days, and I just wanted to clarify that we had

1 notice that it was Tuesday, Wednesday and Thursday
2 this week.

3 THE COURT: Well, you understood
4 differently from what I understood. My docket is
5 marked out for two days, and I thought that was a
6 little much, frankly. I mean it's -- you know,
7 it's an evidentiary hearing on preliminary
8 injunctive relief. We're not going to try the
9 merits of the case. It's very likely to succeed.
10 What's the deal? I can't imagine that you need
11 three days.

12 I understand everybody has been designated
13 and probably wants to have their ten minutes, but
14 the facts aren't really that disputed, are they?

15 MS. SMITH: I think the adequacy of the
16 notice is very much disputed and the access issue
17 is --

18 THE COURT: Sure. That's just a matter of
19 putting people up there on the stand to say, what
20 notice did you give, what form did it take, how
21 was it disseminated, who did it, who received it,
22 that sort of thing, as opposed to \$106,000 for
23 lobbying on your tax return, let's kind of define
24 what that might have been for. We don't need
25 that. Not to be highly critical of you, Nancy,

1 but we need to be moving along.

2 THE CLERK: Thursday is not a good day.

3 THE COURT: It's not a good day?

4 THE CLERK: You're available Friday, but
5 Thursday you have sentencings and tons of stuff.

6 THE COURT: Well, let's see how we do. I
7 mean, I think if you get together -- I imagine a
8 lot of this is the same testimony with just
9 different numbers, right?

10 MR. O'CONNELL: Correct, your Honor.

11 THE COURT: Okay. Again, what I'm really
12 interested in is any factual disputes that are
13 material regarding the notice requirement for the
14 13(A) issues. If there's any evidence on that,
15 that's what I really want to hear. I don't want
16 to miss that, so flag that for me.

17 The 30(a), likely to be deferred until the
18 Supreme Court decides the procedural posture. I
19 understand you still want to build a record, but
20 if we can try to do it in an efficient and
21 effective way, that would be good. All right.
22 See you at 1:30.
